

# SEE WHAT YOU'VE BEEN MISSING!

The KISD graduation ceremonies will be documented utilizing broadcast quality cameras and audio equipment. **The multiple cameras will be edited together to show many close up shots of the students which do not appear on the scoreboard video.** These videos make a great keepsake as well as a perfect way for the students to share their graduation experience with a family member that is unable to attend the live ceremony. You can return this order form by mail or **the video can most easily be ordered online by scanning the QR code on the page below using your smart phone camera.**

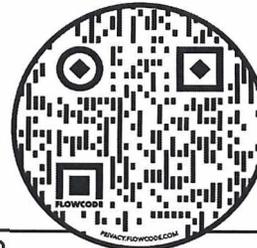

*Discounted combination packages are only available online. Orders received after the date of graduation will incur a \$5 late fee.*
