The Board of Trustees and Citizens Katy Independent School District 6301 South Stadium Lane P.O. Box 159 Katy, Texas 77492-0159

Dear Board Members and Citizens:

The Comprehensive Annual Financial Report (CAFR) of the Katy Independent School District (the District) for the fiscal year ended August 31, 2017 is presented herein. The CAFR is management's report of the financial operations of the District for the Board of Education (the Board), patrons, taxpayers, employees, grantor agencies, the Texas Education Agency (TEA), and other interested parties. The Government-wide Financial Statements in this report provide an overview of the District's governmental activities, while detailed Fund Financial Statements describe specific activities of each fund group used in accounting for the District's financial transactions. This report has been prepared by the District's Finance Department in accordance with the accounting principles and reporting standards promulgated by the Governmental Accounting Standards Board (GASB) and the official rules published by the Texas Education Agency.

The CAFR is presented in three sections: Introductory, Financial, and Statistical. The Introductory Section includes this transmittal letter, a list of principal officials and advisors, and an organizational chart. The Financial Section includes the Independent Auditors' Report, Management's Discussion and Analysis (MD&A), basic financial statements, required supplementary information, and other supplementary information. The Statistical Section is designed to reflect social and economic data, financial and fiscal trends, and demographic information.

District management assumes full responsibility for the completeness, fairness, and accuracy of the information contained in this report. We believe that the data presented is accurate in all material respects and is presented in a manner to fairly display the financial position of the District as measured by the financial activity of its various funds. We also believe that all necessary disclosures are included to enable the reader to gain full understanding of the District's financial activities.

The Texas Education Code Section 44.008 requires an annual audit of the accounts, financial records, and transactions of the District by independent certified public accountants selected by the Board. This requirement has been complied with, and the Independent Auditors' Report has been included in this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of the federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and compliance with legal requirements involving the administration of federal awards. These reports are available in the District's separately issued Single Audit Report.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The Katy Independent School District was established in 1919 and is governed by an elected Board of seven trustees. The District is a recognized political subdivision of the State of Texas and has the responsibility for and control over all activities related to public education within its 181 square mile boundary. Located approximately 16 miles west of downtown Houston, the District has a population of approximately 340,574 and extends beyond the City of Katy into Harris, Fort Bend, and Waller counties. The District and the City of Katy are governed independently, with each having individual taxing authority. The District is an independent entity and has no component units. Katy ISD has an enrollment of more than 75,428 students and is comprised of 63 campuses including 39 elementary schools, 14 junior high schools, 7 comprehensive high schools, a high school of choice, an alternative learning center, and a career and technology center. The ages and capacities of these facilities range from 0 to 70 years with an average age of 20.3 years and can be found in Exhibit XVII of the Statistical Section.

Katy ISD provides a learning environment that ensures quality education. Its balanced, dynamic curriculum and cooperative partnership with parents and community prepare students for the changes and challenges of the future and empowers them to pursue productive and fulfilling lives. The District is a partnership of teachers, parents, and the community. Because of this working alliance, each year Katy ISD students, staff, schools, and volunteers win numerous state and national awards.

Attesting to the solid relationship between the District and the community, Katy ISD offers an award winning Partners in Education program, providing a number of initiatives encouraging our campuses and community to forge long-term relationships beneficial to all involved. In 2016-2017, this volunteer force contributed more than one million documented volunteer hours district-wide.

Katy ISD teachers have online access to a rigorous and relevant curriculum that is aligned to state standards. They collaboratively design instruction promoting meaningful learning experiences; encourage connections between and among the disciplines; and promote academic, emotional, physical, social and positive behavioral skills. Relevant learning tasks are developed to assess student learning through a variety of ways including formative, summative, authentic, formal, informal, and project-based. Students are encouraged to be actively involved in using evaluation criteria to self-monitor, self-reflect, and self-evaluate. Individual student data is used to inform and guide instruction. Student achievement on statewide tests consistently surpasses statewide achievement levels. Scores for the PSAT, SAT, and ACT rank above both state and national averages. Katy ISD students consistently win individual and team competitions in academics, athletics, and fine arts. Katy ISD was recently ranked as the best school district in the Greater Houston Area by Niche, a review site providing rankings and insight into more than 120,000 K-12 schools. Niche looked at data on academics, health and safety, and school resources to determine the best school districts in the region. Katy ISD received high marks across the board, and was additionally ranked fourteenth among school districts state-wide.

The District is a leader among Texas public school districts in the integration of technology and education and maintains more than 35,000 centrally managed computers. Katy's mobile device management system, Jamf, is in place to handle the setup and deployment of applications for the 30,000 iPad tablet devices utilized by the district. The District also uses more than 4,000 interactive white boards and, new to Katy ISD this year, was the addition of 7,000 Chromebooks.

Information on the district website provides parents and community members with resources used in instruction. The District's website, learning management system, and Katy on the Go app offer pertinent communication to assist with the parent-teacher-student connection and with on-going communication.

A strong infrastructure allows the district to support a wide variety of technologies. A few of the technologies that set the District apart is our IP based phone system and access points in each classroom. With the addition of public-filtered Wi-Fi, the District continues to support well over 50,000 devices on this external Wi-Fi each day. The safety of our campuses also relies on the strong technology infrastructure, and to that end, installation of door-access controls and video cameras throughout each campus supports this robust security.

Microsoft Office 365 continues to allow our staff and students the anytime, anywhere access to online applications such as Excel, Word, PowerPoint, OneNote, and many other creation tools. Katy ISD staff and students can also download these applications to use on their personal computers and smart devices as well as take advantage of unlimited file storage. Ensuring our students can access resources easily at home and school is a key to success; therefore, the single sign-on platform, MyKaty Cloud, offers the resources pertinent to the role of the student or staff that is logging in. Katy ISD continues to utilize the learning management system, Canvas. Canvas offers students interactivity, access to content, calendars, and assignments inside and outside the classroom.

The implementation of data-warehouses that aggregate large amounts of data into a rich display of easy to read visualizations has been a big win for our stakeholders. The development of numerous dashboards has aided decision-making for campuses and departments and is also used to display information to the public on the districts website.

Katy ISD is comprised of dedicated and aspiring professionals with a common goal "to do whatever it takes" for student success. The emphasis is on meeting the needs of students through engaging instruction, a supportive classroom environment, and a wide variety of extracurricular activities.

ECONOMIC CONDITION AND OUTLOOK

Local Economy

The area's economy is diverse with concentrations in healthcare, real estate, oil and gas, commercial building, retail trade, and service producing industries. Many employers recruit their professional workers from the west Houston area; therefore, local educational institutions are a key component to producing employees with high educational backgrounds. The greatest strength of the area's economy is its human capital. Maintaining the competitive advantage of having well-educated and highly compensated workers requires a number of educational initiatives, including the public support of local schools as they enroll larger and more diverse student bodies and the access to higher education for residents by public schools and businesses working with local universities.

When one factors in the reputation of Katy ISD's educational programs as reflected by its academic achievements, the school district is expected to continue its strong growth and development. Amenities such as the school system, proximity to employment and activity centers, and an effective transportation system combine to attract new residents. Several large projects continue to draw people to the District including several master planned residential developments, healthcare facilities for Texas Medical Center staples like Texas Children's, Methodist, MD Anderson and Memorial Hermann Hospitals, as well as numerous commercial projects including hotels, restaurants, entertainment venues, and shopping centers. In addition, residents have more mobility options with access to I-10 and the Grand Parkway, which now stretches across the northwest part of the district from I-10 to I-59.

Growth and Long Range Planning

According to American Schools and Universities Magazine, Katy ISD is the 49th largest school district in the nation and is one of the fastest growing school districts. With 2016-17 enrollments of 75,428 the District's growth is showing no signs of stopping. The District's latest demographic report predicts that with the most likely growth projections, over 98,000 students will attend Katy ISD schools by the year 2026. There are many reasons for the District's growth but a community survey revealed that the primary reason new residents move to the Katy area is because of its schools.

In the fall of 2017, Katy ISD opened one elementary, one junior high, and one high school. In November of 2017, a \$609.2 million bond referendum was passed by voters to address anticipated growth. This bond provides funding for additional facilities including another high school, two junior highs and four elementary schools, as well as work at existing facilities including renovations and component replacements, technology, school buses, safety and security projects, and property acquisition.

The population of the District continues to grow and all indicators point to continued growth over the next decade. This growth makes it imperative for the District to continue to plan wisely for the future. A need for additional facilities continues to be a financial focal point of the District. The District maintains its Long Range Facilities Plan that projects and prioritizes facility needs over the next five - ten years. This plan, which includes both new and existing facilities serves as a tool to assist bond planning committees. The plan was updated for the recent 2017 bond referendum. With the schedule for opening new facilities and renovations, projected enrollments, and projected funding levels based on current law, the District continuously develops and monitors budget priorities and short and long range plans.

The District is an active member of a coalition of fast-growing school districts that work with legislators to address problems, needs, and challenges specific to districts in a fast-growth environment. Facility funding, operating costs associated with additional facilities, tax rate limitations, and other problem areas experienced by growing districts are the focus of the coalition.

FINANCIAL INFORMATION

Accounting Systems

The Board of Trustees maintains a system of accounting controls designed to assist the administration in meeting its responsibility for accurately reporting the financial condition of the District. The system is designed to provide reasonable assurance that assets are safeguarded against loss, theft, or misuse so activities can be recorded and transacted by the administration for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than an absolute, assurance that the financial statements will be free from material misstatement.

The cost of operating the District's schools and the revenues to cover these costs are accounted for through the General Fund. Food service operations and special programs funded by local, state and federal government grants designed to accomplish a particular objective are accounted for in the Special Revenue Fund.

The District accounts for school construction financed by bond sales through a Capital Projects Fund. A specific portion of the tax rate is dedicated to payment of bond principal and interest. These transactions are recorded in the Debt Service Fund.

The District has established Internal Service Funds to account for the transactions of its print shop operations, self-insured workers' compensation, and health insurance plans. Income for these funds is derived primarily from charges to governmental funds based on usage.

Agency Funds are included in the CAFR in financial schedules of student activity funds. Accounting for these funds is managed centrally by the Financial Services Department, using the same uniform accounting procedures and guidelines as the General Fund.

The District's accounting records are maintained on a modified accrual basis for governmental fund types and a full accrual basis for the proprietary fund types as prescribed by Texas Education Agency Financial Accountability System Resource Guide (Resource Guide). Additionally, the District has prepared the Government-wide Financial Statements on the full accrual basis as required by Governmental Accounting Standards Board Statement No. 34.

Financial data is submitted by the District to the Texas Education Agency through the Public Education Information Management System (PEIMS). The data is then analyzed, reviewed and presented to the State Board of Education.

Budgetary Process

State law requires that every local education agency in Texas prepare and file an annual budget of anticipated revenues and expenditures with the Texas Education Agency. The budget itself is prepared utilizing a detailed line item approach for governmental fund types and is prepared in accordance with the budgeting requirements as outlined in the State Resource Guide. It is the intent of the District that the budgetary process results in the most effective mix of the educational and financial resources available while attaining the goals and objectives of the District. This includes the identification and prioritization of as many separate educational and education support components as reasonably possible. These components are initially identified and prioritized by the organizational manager most directly responsible and are later reviewed by principals, department heads, central administrators, and finally the Board of Trustees.

This priority budgeting approach allows the District to establish layers of expenditures that can be matched to the anticipated revenues and desired levels of fund balances. The ultimate decision of the level of funding and components to be funded is the responsibility of the Board.

The budget may be amended during the year to address unanticipated or changing needs of the District. Changes to functional expenditure categories, revenue objects, or other sources and uses accounts require Board approval.

Significant Financial Activities

Unfortunately, in 2017, the 85th Texas Legislature appropriated only a modest increase to public education of \$4.2 billion. This increase was made up of \$2.7 billion for enrollment growth and \$1.5 billion to fund an increase in the Austin Yield. The primary driver in the State's funding formula, the Basic Allotment, did not change. Although some funding was eliminated or reduced for various other programs and grants, others were increased, reinstated or added.

With this said, the session saw lawmakers balk at the negotiations on school finance reform. More than 600 Texas school districts sued the state over its funding scheme after the Legislature cut \$5.4 billion from the public education budget in 2011. An Austin-based judge did determine the Texas' school funding system to be inadequate. May 2016 brought an abrupt end to a years-long legal fight from school districts anxious for more state money to educate children, when the Texas Supreme Court issued a ruling to uphold the state's public school funding system, despite its imperfections, as constitutional. Although the court gave legislators no mandate to change the system, it did urge state lawmakers to implement "transformational, top-to-bottom reforms that amount to more than Band-Aid on top of Band-Aid."

The District's total tax base grew over \$3.4 billion in 2016-17, an increase of 10.5%. Residential properties, including multi-family residences, comprised 68.2% of the total tax base, commercial property 26.4%, vacant land 4.5%, and minerals less than 1%. Due to the District's boundaries falling within three counties, property located in Katy ISD is appraised by three County Appraisal Districts (CAD's).

The District has an inter-local agreement with the City of Katy to participate in a Tax Increment Reinvestment Zone (TIRZ). Maintenance and Operation (M&O) taxes collected on real property located within the reinvestment zone are contributed to the TIRZ and used to service bonded debt on a multipurpose facility located within the zone. Tax contributions exceeding the annual debt requirements and related expenses are returned to the District to be used within the TIRZ at the discretion of the District.

Technology is a high priority with expenditures focused on equipping new schools, the replacement of equipment in existing schools, and providing new and updated software. The technology strategic plan and long-range facility plan continue to be reviewed and modified as necessary to ensure continued support and integration of technology both at the campus and support facilities.

State legislation passed in 2005 reduced the District's M&O tax rate from \$1.63 to \$1.445 in 2006-07 and to \$1.0866 in 2007-08. School Boards are given local discretion to increase the M&O tax rates by four cents without holding an election. The District's 2016-17 M&O tax rate maintains the additional four cent increase originally adopted in 2006-07. With the increase in property values and strategic debt management, the District was able to decrease the District's debt tax rate from \$.40 to \$.39 in 2015-16 and maintained the lower rate in 2016-17.

The tax rates per \$100 of assessed value at 100% of market value from 2009-10 are as follows:

| | 2016-17 | 2015-16 | 2014-15 | 2013-14 | 2012-13 | 2011-12 | 2010-11 | 2009-10 |
|-------------------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|
| General Fund | \$ 1.1266 | \$ 1.1266 | \$ 1.1266 | \$ 1.1266 | \$ 1.1266 | \$ 1.1266 | \$ 1.1266 | \$ 1.1266 |
| Debt Service Fund | 0.3900 | 0.3900 | 0.4000 | 0.4000 | 0.4000 | 0.4000 | 0.4000 | 0.4000 |
| Total | \$ 1.5166 | \$ 1.5166 | \$ 1.5266 | \$ 1.5266 | \$ 1.5266 | \$ 1.5266 | \$ 1.5266 | \$ 1.5266 |

AWARDS AND ACKNOWLEDGEMENTS

Financial Reporting Awards

For the fifteenth consecutive year, the District scored the highest possible rating of "Superior Achievement" for the Schools FIRST (Financial Integrity Rating System of Texas), a financial accountability system for Texas School Districts developed by the Texas Education Agency in response to Senate Bill 875 of the 76th Texas Legislature in 1999. The primary goal of Schools FIRST is to ensure quality performance in the management of school districts' financial resources, a goal made more significant due to the complexity of accounting associated with the Texas school finance system.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its CAFR for the fiscal year ended August 31, 2016 the thirty-fourth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. The report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current Comprehensive Annual Financial Report continues to meet the requirements of the Certificate of Achievement program and are submitting it to the GFOA to determine its eligibility for certification.

Additionally, the District was awarded the Certificate of Excellence in Financial Reporting by the Association of School Business Officials International (ASBO) for its Comprehensive Annual Financial Report for the year ended August 31, 2016. This award has also been received for thirty-four consecutive years. We believe the Comprehensive Annual Financial Report for the year ended August 31, 2017 continues to conform to the standards for which this award was granted.

Acknowledgements

We appreciate the support of the Board, the residents of the District, and the business community, all of whom work cooperatively to ensure the best education for its students and the prudent development of the District. This cooperation is indicative of the strong support for the attainment of excellence in the District's education programs.

Also, we would like to express an appreciation to all employees in the District for their interest and support in planning and conducting the financial affairs of the District in a responsible and progressive manner.

Finally, a special thanks to the Finance Department for its diligence and dedicated service in helping prepare this report on a timely basis.

KATY INDEPENDENT SCHOOL DISTRICT

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Associate of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Katy Independent School District, Texas for its Comprehensive Annual Financial Report for the fiscal year ended August 31, 2016.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

Receiving the award is recognition that a school system has met the highest standards of excellence in government accounting and financial reporting.

Government Finance Officers Association

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Katy Independent School District Texas

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

August 31, 2016

Christopher P. Morrill

Executive Director/CEO

KATY INDEPENDENT SCHOOL DISTRICT

CERTIFICATE OF EXCELLENCE IN FINANCIAL REPORTING

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to Katy Independent School District for its Comprehensive Annual Financial Report for the fiscal year ended August 31, 2016.

The Certificate of Excellence in Financial Reporting is an award of recognition granted by ASBO. The award certifies that the recipient school system has presented its Comprehensive Annual Financial Report to the ASBO Panel of Review for critical review and evaluation and that the report was judged to have complied with the principles and practices of financial reporting recognized by ASBO.

Receiving the award is recognition that a school system has met the highest standards of excellence in school financial reporting.

The Certificate of Excellence in Financial Reporting is presented to

Katy Independent School District

for its Comprehensive Annual Financial Report (CAFR) for the Fiscal Year Ended August 31, 2016.

The CAFR has been reviewed and met or exceeded ASBO International's Certificate of Excellence standards.

INDEPENDENT AUDITORS REPORT

To the Board of Trustees Katy Independent School District Katy, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Katy Independent School District (the "District"), as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Austin Dallas Fort Worth Houston

To the Board of Trustees Katy Independent School District

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 5 through 16 and budgetary comparison information and pension information on pages 82 through 88 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, such as the combining and individual fund statements and schedules, other supplementary information and other information, such as the introductory and statistical section, are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules and other supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and other supplementary information are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

To the Board of Trustees Katy Independent School District

Whitley FERN LLP

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 22, 2018, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Houston, Texas January 22, 2018 THIS PAGE INTENTIONALLY LEFT BLANK

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Katy Independent School District's (the District) financial performance provides an overview of the District's financial activities for the twelve months ended August 31, 2017. It should be read in conjunction with the information in the letter of transmittal and the District's financial statements.

FINANCIAL HIGHLIGHTS

As stated in the Government-wide Financial Statements, the assets and deferred outflows of resources of the District exceeded the liabilities and deferred inflows of resources at August 31, 2017 by \$271.2 million. Of this amount, \$122.6 million is unrestricted. The \$271.2 million of the District's total net position represents an increase of \$6.2 million. Total revenues increased \$16.7 million to \$873.3 million in fiscal year 2017.

The District's Governmental Fund Financial Statements reported a combined ending fund balance in fiscal year 2017 of \$429.9 million. The total fund balance for the General Fund was \$202.8 million or 31.6% of the total General Fund expenditures of \$642.2 million. The Debt Service Fund ended its year with a fund balance of \$54.3 million which is to be used for the retirement of debt. The Capital Projects Fund ended the year with a fund balance of \$154.7 million which is restricted for school district construction projects. The Special Revenue Fund had a balance totaling \$18.1 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's Basic Financial Statements. The District's basic financial statements are comprised of three components: 1) Government-wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Basic Financial Statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves, including schedules required by the Texas Education Agency (TEA).

Government-wide Financial Statements

All the District's services are reported in the Government-wide Financial Statements, including instruction, student transportation, general administration, school leadership, facilities acquisition and construction, and child nutrition services. Property taxes, state aid, federal aid, and investment earnings finance most of the activities. Additionally, all capital and debt financing activities are reported here.

Government-wide Financial Statements are designed to provide readers a broad overview of the District's finances in a manner similar to a private-sector business.

Statement of Net Position presents information on all of the District's assets, liabilities and deferred outflows/inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event causing the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and unused leave retirement bonuses).

The Government-wide Financial Statements distinguish functions of the District that are principally supported by taxes and revenues from other functions intended to recover all or a significant portion of their costs through user fees and charges.

Government-wide Financial Statements can be found on pages 18-21.

Fund Financial Statements

The District uses fund accounting to track specific sources of funding and spending for particular purposes. A fund is an accounting device used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the District's funds can be divided into three categories: Governmental Funds, Proprietary Funds, and Fiduciary Funds. The Fund Financial Statements provide more detailed information about the District's most significant funds, not the District as a whole.

Governmental Funds are used to account for essentially the same functions reported as government activities in the Government-wide Financial Statements. Most of the District's activities are included in governmental funds which focus on 1) how cash and other financial assets, that can readily be converted to cash, flow in and out and 2) the balances that are available for spending at year-end. Consequently, the Governmental Fund Statements provide a detailed short-term view that helps determine whether more or fewer financial resources can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the Government-wide Statements, additional information is provided in Figure A-1 to explain the relationship between them.

The District maintains four governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Debt Service Fund, and Capital Projects Fund which are considered to be major funds. Data from the special revenue fund programs are combined in a single, aggregated presentation and is a non-major fund. Individual program data for each of these is provided in the form of combining schedules elsewhere in the financial statements.

The District adopted an annual appropriated budget for the General Fund, Debt Service Fund and Food Service Fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets.

The basic Governmental Fund Financial Statements can be found on pages 22-29 of this report.

Proprietary Funds are used to account for operations that are financed similar to those found in the private sector. These funds provide both short-term and long-term financial information. There are two types of proprietary funds.

The first type is the Enterprise Fund, which is used to report the same functions presented as business type activities in the Government-wide Financial Statements. In the Enterprise Fund, the District charges outside customers a fee for services the District provides. The District has no business-type activities or enterprise funds.

The second type is the Internal Service Fund, which is used to accumulate and allocate costs internally among the various functions. Internal Service Funds are used to support governmental activities such as the District's Workers' Compensation, Health Insurance, and Print Shop funds. These three funds are combined into a single aggregated presentation in the Proprietary Fund Financial Statements found on pages 30-32 of this report.

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, and other funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Assets and Liabilities and Statement of Changes in Fiduciary Assets and Liabilities. The Fiduciary Funds are excluded from the activities in the District's Government-wide Financial Statements because the District cannot use these assets to finance its operations.

The basic Fiduciary Fund Financial Statements can be found on page 33 of this report.

Notes to the Financial Statements

The notes provide additional information essential to a complete understanding of the data provided in the Government-wide and Fund Financial Statements. The notes can be found on pages 34-79 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. The required supplementary information relates to comparison of the original adopted budget, the final amended budget, and the actual expenditures for the fiscal year. This is required supplementary information for the General Fund and any major special revenue funds. The General Fund is the only fund presented as required supplementary information. Additional information related to the District's implementation of GASB Statement No. 68 is also presented in this section. Required Supplementary Information can be found on pages 82-88 of this report.

Other Supplementary Information

Other Supplementary Information provides additional analysis and is not a required part of the basic financial statements. Other supplementary information includes comparative information on selected funds and additional detail of the General Fund's revenues and expenditures. It also contains the combining statements referred to earlier in connection with the special revenue fund and certain compliance schedules required by state regulatory agencies. The Other Supplementary Information can be found on pages 92-132 of this report.

The remainder of this overview section of the Management's Discussion and Analysis explains the structure and contents of each of the statements. Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District covered and the types of information contained.

Figure A-1. Major Features of the District's Government-wide and Fund Financial Statement

| | | Funds Statements | | | | |
|--|---|--|--|---|--|--|
| Type of Statements | Government-wide | Governmental Funds | Proprietary Funds | Fiduciary Funds | | |
| Scope | Entire District's government (except fiduciary funds) | The activities of the District that are not proprietary or fiduciary | Activities the District operates similar to private business | Instances in which the District is the trustee or agent for someone else's resources | | |
| | Statement of net position | Balance sheet | Statement of net position | Statement of fiduciary assets and liabilities | | |
| Required financial statements | Statement of activities | Statement of revenues, expenditures, and changes in fund | Statement of revenues, expenses, and changes in fund net position | Statement of changes in fiduciary assets and liabilities | | |
| | | balances | Statement of cash flows | | | |
| Accounting basis and measurement focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial resources focus | Accrual accounting and economic resources focus | Accrual accounting and economic resources focus | | |
| Type of asset/liability information | All assets and liabilities, both financial and capital, short-term and long-term | Only assets expected to be used and liabilities that come due during the year or soon thereafter; no capital assets included | All assets and liabilities, both financial and capital, and short-term and long term | All assets and liabilities, both short- term and long-term | | |
| Type of inflow/outflow information | All revenues and expenses during year, regardless of when cash is received or paid | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter | All revenues and expenses during year, regardless of when cash is received or paid | All revenues and expenses during year, regardless of when cash is received or paid | | |

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position can serve as a useful indicator of the District's financial condition. The District's net position at August 31, 2017 totaled \$271.2 million, an increase of \$6.2 million.

At the end of the current fiscal year, 45.2% of the District's net position is unrestricted and are resources available to fund the District's programs in the following year.

An additional \$82.9 million, or 30.6% of the District's net position, reflect its investment in capital assets (e.g. land, building and improvements, and furniture and equipment) less any related debt used to acquire those assets still outstanding. These assets are not available for future spending. The remaining balance of net position represents resources subject to external restrictions on how they may be used. The District's net position increased \$6.2 million during the current fiscal year. The changes in net position are illustrated in Table I.

| Table I | | | | | | | | |

| Restricted | 65,667,551 | 62,162,827 | 3,504,724 | | | | | |
| Unrestricted | 122,630,464 | 124,728,667 | (2,098,203) | | | | | |
| Total Net Position | \$ 271,150,917 | \$ 264,919,262 | \$ 6,231,655 | | | | | |

Governmental Activities

The net position of the District's Governmental Activities increased by \$6.2 million. The total cost of all Governmental Activities for the fiscal year ended August 31, 2017 was \$867.1 million. Funding for these Governmental Activities is by specific program revenue or through general revenues such as property taxes and investment earnings. The following is a summary of the governmental activities:

- The total revenues of all governmental activities were \$873.3 million. The amount paid by the District's taxpayers for these activities through property taxes was \$539.1 million or 61.7%.
- The District's tax rate of \$1.5166 per \$100 of assessed value maintains the same tax rate as the previous fiscal year. With a 10.5% increase in total assessed valuation, the tax rate generated an overall increase in the District's tax revenues of \$47.4 million in 2017.
- The cost of all governmental activities is \$867.1 million, an increase of \$57.7 million from fiscal year 2016. Expenses increased in most functions to support the increase of 1,851 students.
- The amount paid by those directly benefiting from programs was \$24.7 million which was \$1.4 million more than the prior year.
- The amount paid by grants and contributions was \$103.7 million which was 4.4% less than the \$108.5 million in 2016.
- The cost of governmental activities not directly funded by program revenue was \$738.6 million, which were \$6.2 million less than general revenues of \$744.8 million. Of the \$744.8
- million in general revenues, 72.4% was funded by property taxes and 26.8% was from state aid not restricted to specific programs.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the Financial Accountability System Resource Guide, Texas Education Agency, with the revenues being recorded when available and measurable to finance expenditures of the fiscal period. Expenditures are recorded when services or goods are received and the fund liabilities are incurred. The general governmental operations include the following major funds: General, Debt Service, and Capital Projects.

Revenues from all Governmental Funds totaled \$866.8 million for the fiscal year ended August 31, 2017, an increase of 3.0% from the prior fiscal year. Local revenues, including property taxes, continued to be the largest source of revenue received by the District and increased \$49.2 million over fiscal year 2016, fueled by a 10.5% increase in property values. Despite the increase in enrollment in 2017, State revenues decreased \$21.8 million or 8.2% from fiscal year 2016 due to the State formulas reducing State allocations to the District in 2016-17 to recoup the even larger tax base increase in 2015-16. Federal revenues decreased \$1.9 million or 4.0%.

Expenditures for governmental operations totaled \$1.3 billion during fiscal year 2017, an increase of 21.6% from fiscal year 2016. This increase was the result of increased staffing and related costs due to the additional number of students, ongoing construction costs for four new campuses, current bond refundings, a one percent average raise and an additional one percent one-time lump sum payment for employees.

The Governmental Funds reported a combined fund balance of \$430.0 million, an increase of \$9.7 million from the combined fund balances for 2016. Changes to the combined fund balances include a \$5.2 million increase in the General Fund, an increase in the Debt Service Fund of \$2.3 million, an increase in the Capital Projects fund of \$0.5 million and an increase of \$1.8 million in the Special Revenue Fund. Out of the combined fund balances, \$150.6 million constitutes unassigned fund balances. Of the remainder of the fund balance, \$2.3 million is nonspendable, \$221.3 million is restricted for items such as debt service, food services, and capital projects, \$10.6 million is committed to self-funded insurance and campus activity funds, and \$45.3 million is assigned for the opening/construction of new schools, capital purchases, encumbered amounts, insurance, and maintaining the debt service tax rate.

The General Fund is the primary operating fund of the District. The most significant factor contributing to the increase of fund balance was the increase in local tax. At the end of the current fiscal year, the General Fund's fund balance was \$202.8 million. Unassigned fund balance represents 23.5% of the total General Fund expenditures, and total fund balance represents 31.6%.

The Debt Service Fund ended the year with a fund balance of \$54.3 million, all of which was restricted for the payment of debt service. The district makes semi-annual debt service payments in February and August of each year. Debt service payments including bond fees and current refunding bond expenditures for the year ended August 31, 2017 were \$329.9 million.

The Capital Projects Fund ended the year with a fund balance of \$154.7 million which is an increase of \$0.5 million over 2016. This increase in fund balance was due to additional bond sales during the year, reduced by the District's ongoing construction project costs.

The Special Revenue Fund ended the year with a fund balance of \$18.1 million which is an increase of \$1.8 million over 2016. This increase was attributable primarily to an increase in the Tax Increment Reinvestment Zone Program, slight increases to the Campus Activity Program, Food Service Program, and Medicaid Administrative Claiming Program, as well as an addition in the Instructional Materials Allotment Program.

Proprietary Funds

The District maintains three internal service funds. Information is presented separately in the Proprietary Funds Combining Statement of Net Position and in the Proprietary Funds Combining Statement of Revenues, Expenses, and Changes in Fund Net Position for the Health Insurance, Workers' Compensation, and Print Shop Funds. Net position in these funds as of August 31, 2017 was \$15.8 million. Of this amount, \$11.0 million was for Health Insurance, \$2.7 million was for Workers' Compensation and \$2.0 million was attributable to the Print Shop. Net position for the fiscal year increased \$1.0 million.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised its budget several times. Revisions to the revenue budget were necessary due to changes in estimates for local and state revenue based on updated information relating to tax collections, earnings on investments, student attendance and rental income. Revisions to the expenditure budget were made to reflect actual expenditures associated with staffing, fluctuation in spending needs, and various other unforeseen occurrences.

The District's major budget amendments presented to the Board of Trustees throughout the year are summarized as follows:

- The total General Fund revenue budget was increased by \$16.0 million.
- The local revenue budget increased by \$6.1 million, primarily due to property tax adjustments realized throughout the year.
- The state revenue budget increased \$8.7 million due to increased enrollment and additional state funding realized as the result of property value audits/appeals submitted by the District.
- Federal revenue budgets increased \$1.2 million primarily due to increased School Health and Related Services Program revenues.
- The District increased the expenditure budget by \$20.4 million throughout the year. Significant increases included:
 - The payroll budget increased \$12.9 million primarily due to the District being approved by the State as a District of Innovation. This designation allowed the District freedom in several areas normally directed by the State, including moving up the start date of school for the upcoming 2017-2018 school year, which increased the salary accrual for the days worked in August 2017 by \$13.4 million. Salary budget also increased \$0.9 million for additional instructional positions needed for growth in student enrollment. These increases were offset by the net remaining \$1.4 million due to routine vacancies, turnover, and other miscellaneous adjustments realized throughout the year.
 - Contracted services budget increased \$4.8 million for utility costs higher than anticipated, relocation of portable buildings, and required special education services. The increase also included approximately \$1.0 million for estimated repair costs for Hurricane Harvey damages incurred in the final days of the District's fiscal year.
 - The capital outlay budget increased \$3.8 million for a chiller replacement, sound and video systems for the District's central athletic venues, and costs related to building improvements at several campuses and central facilities in the District.
 - O Supplies and other operating budget categories netted to the remaining \$1.1 million reduction to the original budget.

After revenue and expenditure budgets were adjusted as described above, the District's actual General Fund amounts differed from the final budget as reported in the budgetary comparison on pages 82-83 of this report. This difference is primarily due to the following factors:

- Final revenues realized were under budgeted levels by \$1.7 million. Revenues from local sources were under the budgeted amount by \$0.91 million due to tax revenue collection volume decreasing at the end of the year while revenues from state sources were \$0.93 million less than budgeted due to reduced state pension on-behalf revenue recorded.
- Expenditures were \$9.6 million less than final budgeted amounts. Remaining unspent funds were payroll and related costs of \$4.3 million, supplies of \$3.0 million, contracted services of \$1.2 million, other operating costs of \$0.7 million, and capital outlay of \$0.4 million. Budget remaining was primarily attributable to personnel vacancies and turnover, and start of school expenditures not realized as goods and services were not received during the final days of fiscal year 2017 due to District closure for Hurricane Harvey.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District has invested \$1.7 billion, net of depreciation, in a broad range of capital assets, including land, equipment, buildings, and vehicles. This amount represents a net increase (including additions, deductions and depreciation) of \$217.7 million from the prior year.

| C | apita | l Assets (net of d Table III | lepre | ciation) | | | |
|---|-------|---------------------------------|-------|----------------|-------|---------------|------------|
| | | | | Governmental A | ctivi | ties | |
| | | 2017 | | 2016 | | Change | Percentage |
| Land | \$ | 84,043,364 | \$ | 79,103,830 | \$ | 4,939,534 | 6.24% |
| Land Improvements | | 37,322,386 | | 26,271,825 | | 11,050,561 | 42.06 |
| Buildings and Improvements | | 1,382,522,092 | | 1,067,701,200 | | 314,820,892 | 29.49 |
| Furniture and Equipment | | 88,589,707 | | 68,260,190 | | 20,329,517 | 29.78 |
| Vehicles | | 38,718,364 | | 36,020,303 | | 2,698,061 | 7.49 |
| Construction in Progress | | 70,849,674 | | 205,196,706 | | (134,347,032) | (65.47) |
| Assets Under Capital Lease | | 16,932,339 | | 18,739,087 | | (1,806,748) | (9.64) |
| Total Capital Assets, Net of Depreciation | \$ | 1,718,977,926 | \$ | 1,501,293,141 | \$ | 217,684,785 | 14.50% |

The increase in capital assets net of depreciation was due mainly to an increase in building and improvements. An elementary, junior high and high school campus all opened in the 2017-2018 school year, along with numerous renovations and major capital replacements. These projects are all part of the District's building program, which is primarily funded by the 2014 bond authorization. More detailed information about the District's capital assets is presented in Note 8 to the financial statements.

Debt Administration

At the end of the fiscal year, the District had total debt outstanding of \$1.9 billion as illustrated in Table IV. This amount consists primarily of general obligation bonds backed by the full faith of the State of Texas's Permanent School Fund. The District's debt includes capital appreciation bonds which accrete interest until their maturity date. Accreted interest on these capital appreciation bonds totaled \$2.8 million at the end of the fiscal year. Included in the outstanding debt of the District for financial reporting purposes is the Capital Lease for the multi-purpose complex constructed for the District by the Katy Development Authority through a Tax Increment Reinvestment Zone (TIRZ). The \$11.4 million capital lease will be paid from property taxes collected through the TIRZ.

The District's bonds are rated AAA by Standard & Poor's (S&P) and Aaa by Moody's Investor Service (Moody's) based on the guarantee of the Permanent School Fund of the State of Texas. The District's underlying ratings are AA by Standard & Poor's and Aa1 by Moody's Investor Service.

More detailed information about the District's debt is presented in Notes 9 and 10 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

As part of the budget development process the District's management has taken into consideration all the factors that drive school district budgets: enrollments, property values, state funding, facility needs and the local economy.

The original 2017-2018 budget adopted included an anticipated 6.2% increase in the District's tax base for 2017-2018 and projected an increase to local revenues of approximately \$26.7 million. However, state funding was anticipated to decrease \$14.7 million despite a projected 2.0% increase in enrollment. This decrease is due to the state funding formulas reducing state allocations to the District in 2017-2018 to recoup the even larger tax base increase in 2016-2017 of 10.5%.

Although growth has slowed slightly, Katy ISD continues to be one of the fastest growing school districts in the Houston metropolitan area, growing at an average of 4.0% from 2008 to 2017 with the 2017-18 enrollment projected to be 77,233 students. The District has also experienced significant growth in property values over the past ten years with assessed values increasing at an average of 10.1% annually. Unemployment continues to remain low in all geographical areas of the District.

All of these factors were considered when adopting the 2017-2018 budgets. With a total tax rate of \$1.5166, the District estimates budgeted revenues of \$854.6 million and appropriations of \$846.5 million, of which \$674.8 million of revenues and \$663.9 million of expenditures are in the General Fund. There are no major initiatives or new programs included in the 2017-2018 budgets.

On August 25, 2017, just six days before the District's fiscal year end, Hurricane Harvey struck the Texas coast before stalling over the Houston area and producing significant flooding. The District did experience damage to some facilities which did not have a substantial negative effect on the operation of the District. However, damage to the Education Support Center/Leonard Merrell Center (ESC/LMC) and Creech Elementary School was more extensive due to flooding. The remediation and restoration of the ESC/LMC facility is anticipated to be substantially complete by early 2018, while Creech Elementary is not projected to reopen until the 2018-2019 school year.

The District intends to file insurance claims and seek federal assistance for any eligible damages.

The District has authorized the appraisal districts of the three counties in which it is located to reappraise damaged properties, but will not know the full extent of damages and the resulting affect to property values until sometime in 2018.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer, Katy I.S.D., 6301 South Stadium Lane, P.O. Box 159, Katy, Texas 77492.

KATY INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2017

Exhibit C-4

| Net Change in Fund Balances - Total Governmental Funds (from Exhibit C-3) | \$ 9,703,283 |
|--|-----------------|
| Amounts reported for governmental activities in the Statement of Activities (Exhibit B-1) are different because: | |
| Internal Service Funds are used by management to charge the cost of various insurance programs and printing operations to individual funds. The net activity of the Internal Service Funds is included in the Statement of Activities. | 973,011 |
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense. | 299,269,468 |
| Depreciation is not recognized as an expense in governmental funds, since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position. | (75,206,631) |
| Repayment of bond and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. | 70,437,539 |
| Proceeds from issuance of long-term debt is reported as an other financing source in the governmental funds. In the government-wide financial statements, proceed are treated as an increase in long-term liabilities. | (425,465,000) |
| Purchase of short term securities for pay off of refunded debt. | 188,158,812 |
| Premium received from issuance of long-term debt. | (56,189,555) |
| Interest accrual on capital appreciation bonds and interest accruals through year end on bonds are not recorded in the fund financial statements but are accrued in the government-wide statements. | 2,447,258 |
| Net loss on disposal of assets is not recorded in the fund financial statements but is included in the government-wide statements. | (6,200,540) |
| Property tax revenues in the Statement of Activities that do not provide current financial resources and are not reported as revenues in the fund financial statements. | 489,608 |
| Amortization of deferred loss on refunding issues, and bond premiums are recorded in the Statement of Activities. | 8,253,785 |
| Revenues that are earned but do not provide current financial resources are recorded in the Statement of Activities but are not in the fund financial statements. | 6,444,797 |

KATY INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF **Exhibit C-4** REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2017 Revenues received in the current year but earned in the prior year are recorded in the fund \$ financial statements but were in the Statement of Activities in the prior year. (5,511,173)Pension contributions made after the net pension liability date are reported as expenditures in the fund financial statements and are reported as deferred outflows in the government-wide statements and TRS contribution adjustments. 13,297,916 Pension expense for the pension plan measurement year is not recorded in the fund financial statements but are expensed in the government-wide statements. (25,237,062)Increase in long-term compensated absence liability is included in the government-wide statements. 566,139

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Katy Independent School District (the District) was formed in February 1919 by a special act of the Texas State Legislature. The District is an independent public educational agency operating under applicable laws and regulations of the State of Texas. A seven member Board of Trustees elected to staggered three-year terms by the District's residents autonomously governs the District. The District prepares its Basic Financial Statements in conformity with Generally Accepted Accounting Principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in Statement on Auditing Standards No. 69 of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of the Texas Education Agency's Financial Accountability System Resource Guide (the "Resource Guide" or "FASRG") and the requirements of contracts and grants of agencies from which it received funds.

The District prepared these financial statements in accordance with GASB Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments", GASB Statement No. 37, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus" which provides additional guidance for the implementation of GASB Statement No. 34, and GASB Statement No. 38 "Certain Financial Statement Disclosures" which changes note disclosure requirements for governmental entities.

GASB Statement No. 34 established a financial reporting model for state and local governments that included the addition of Management's Discussion and Analysis, Government-wide Financial Statements, Required Supplementary Information, and the elimination of the effects of internal service activities and the use of account groups to the already required fund Financial Statements and notes.

The following is a summary of the most significant accounting policies:

A. Reporting Entity

The District is considered an independent entity for financial reporting purposes and is considered a primary government. As required by Generally Accepted Accounting Principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the District's financial reporting entity. Based on these considerations, the District's Basic Financial Statements do not include any other entities. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the District's financial reporting entity are based on criteria prescribed by Generally Accepted Accounting Principles. These same criteria are evaluated in considering whether the District is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the District's financial reporting entity status is that of a primary government are: that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments.

Additionally prescribed criteria under Generally Accepted Accounting Principles include considerations pertaining to organizations for which the primary government is financially accountable; and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A. Reporting Entity (continued)

The Board of Trustees (the Board) is elected by the public and has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) in its Statement No. 61, "The Financial Reporting Entity." There are no component units included with the reporting entity.

B. Government-wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are Government-wide Financial Statements. They report information on all of the Katy Independent School District operating activities and activities other than the District's fiduciary (agency type) activities. For the most part, the effect of interfund activities has been removed from these statements. Governmental activities include programs supported primarily by taxes, state foundation funds, grants and other intergovernmental revenues. The District has no business-type activities that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include school lunch charges, community education tuition, summer school tuition, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Property taxes are always general revenues.

Interfund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position. In the Government-wide statements, eliminations have been made to minimize double-counting of internal activities. Interfund balances between governmental funds and also between governmental funds and internal service funds are eliminated on the Government-wide Statement of Net Position. Since the internal service funds support the District's activities, the financial activities of these funds are presented in the governmental activities column in the Government-wide Statement of Activities as a direct expense in the proper functional category. In the Government-wide Statement of Activities, the net activities of the Internal Service such as Health Insurance, Workers' Compensation, and Print Shop have been allocated to the appropriate functional expense in order to present a more accurate and complete picture of the direct expenses of the functions. The District has no interfund services provided and used between functions that would be program revenue which would not be eliminated in the process of consolidation.

The Fund Financial Statements provide reports on the financial condition and results of operations for three fund categories – governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for district operations, they are not included in the Government-wide Statements. The District considers some governmental funds as major and reports their financial condition and results of operations in a separate column.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government-wide and Fund Financial Statements (continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are non-operating.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Government-wide Financial Statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities, deferred inflows of resources and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available and recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. Compensated absences are reported in governmental funds only to the extent unused reimbursable leave is outstanding following an employee's resignation or retirement.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors may require the District to refund all or part of the unused amount.

The Proprietary Fund Types are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The Agency Fund has no measurement focus, but utilizes the accrual basis of accounting for reporting its assets and liabilities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Fund Accounting

The accounts of the District are organized on the basis of funds in accordance with the provisions of the Resource Guide. Each fund is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses. For financial statement presentation, the District's Fund Financial Statements provide more detailed information about the District's most significant funds, not the District as a whole. The funds shown on the Fund Financial Statements are considered significant funds because of the size and activity of the funds in relation to all of the funds.

The District reports the following Governmental Funds:

1. General Fund

The General Fund is the government's primary operating fund. It is used to account for all financial transactions not properly included in other funds. The principal sources of revenues include local property taxes, state funding under the Foundation School Program, interest earnings on fund investments, federal source revenues for indirect costs reimbursed by the programs accounted for in the Special Revenue Fund, and revenues received for School Health and Related Services. Expenditures include all costs associated with the daily operations of the District except for food service, debt service, capital projects, and specific programs funded by the federal or state government.

2. Debt Service Fund

The Debt Service Fund is used to account for the payment of interest and principal on all bonds of the District. The primary sources of revenue for debt service are local property taxes, hold harmless funds, and interest earnings on investments.

3. Capital Projects Fund

The Capital Projects Fund is used to account for the proceeds of the District's bond sales and revenues whose expenditures are restricted to the construction and acquisition of major capital facilities.

4. Special Revenue Fund

The Special Revenue Fund is used to account for all financial resources restricted to, or designated for, specific purposes by a grantor. Specifically, this type of fund is used to account for funds that are used for the District's food service program, including local and federal revenue sources, for federally financed programs (grants) where unused balances are returned to the grantor at the close of specified project periods and other revenue specific programs. Project accounting is employed to maintain integrity for the various sources of funds. Resources accounted for in these programs are awarded to the District for the purpose of accomplishing specific educational tasks as defined by grantors in contracts or other agreements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Fund Accounting (continued)

Additionally, the District reports the following Proprietary Fund:

5. Internal Service Fund

The Internal Service Fund is used to account for revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis. The following Internal Service Funds are used by the District:

The Workers' Compensation Fund is used to account for the operations of the District's workers' compensation insurance plan, which is supported principally by employer contributions. Expenses include plan benefit payments to insured employees for claims and premium charges. Estimated amounts due for claims incurred but not reported at year-end are included as fund liabilities.

Similar to the Workers' Compensation Fund, the Health Insurance Fund is used to account for the District's health insurance plan, which is supported by both district and employee contributions. Expenses include plan benefit payments to health care providers for claims incurred. Estimated amounts due for claims incurred but not reported at year-end are included as fund liabilities.

The Print Shop Fund is used to account for the District's internal printing operations. All costs and expenses of operating the print shop are accounted for in the fund. Users of the printing services are charged fees based on amounts estimated to cover the cost of operations.

Finally, the District reports the following Fiduciary Funds:

6. Agency Funds

The Agency Funds are used to account for activities of student groups. These funds have no equity; assets are equal to liabilities and do not include revenues and expenditures for general operations of the District. The Agency Fund accounts for resources held in a custodial capacity by the District, and consist of funds that are property of students and others and cannot be used by the District in operations.

E. Other Accounting Policies – Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposit, balances in privately managed public funds investment pools (TexPool, Texas CLASS and Lone Star), and short-term investments with original maturities of three months or less from the date of acquisition. For the purpose of the statement of cash flows, the Proprietary Fund Types consider temporary investments, with maturity of three months or less when purchased, to be cash equivalents.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Other Accounting Policies – Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (continued)

2. Investments

Investments consist of deposits with TexPool, Texas CLASS and Lone Star, local government investment pools. The District's investment pools are valued and reported at amortized cost as permitted by GASB Statement No. 79, *Certain Investment Pools and Pool Participants*. Investments having a maturity of three months or less when purchased are reported as cash and cash equivalents.

The District categorizes fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles.

3. Short-Term Interfund Receivables/Payables

During the course of operations, transactions occur between individual funds for specified purposes. These receivables and payables are classified as due from other funds or due to other funds on the combined balance sheet.

4. Inventories and Prepaid Items

Inventories consisting of supplies and materials are stated at cost (average cost method) and include consumable custodial, maintenance, transportation, instructional, food consumables and office supplies. Inventories of governmental funds are recorded as expenditures when the supplies and materials are used or consumed (consumption method) rather than when purchased. Inventories of food commodities are recorded as revenues at fair market value supplied by the Texas Department of Human Services on the date received, and are recorded as expenditures when the commodities are consumed. A portion of fund balance is classified as non-spendable to reflect minimum inventory quantities considered necessary for the District's continuing operations.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are recorded as expenditures when the supplies or materials are used and consumed (consumption method) rather than when purchased.

5. Capital Assets

Capital assets, which include land, buildings, furniture and equipment, are reported in the applicable governmental column in the Government-wide Financial Statements. Primarily, capital assets are defined by the District as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Costs of the facilities Acquisition and Construction Function that relate to overall planning of District facilities, managing overall District assets and overall construction projects are treated as period costs and are not capitalized unless related to specific assets. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Other Accounting Policies – Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (continued)

5. Capital Assets (continued)

When assets are retired or otherwise disposed of, the related costs or other recorded amounts are removed.

Buildings, furniture, and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

| Assets | Years |
|-------------------------|-------|
| | |
| Land Improvements | 20 |
| Building & Improvements | 25-50 |
| Furniture & Equipment | 1-20 |
| Vehicles | 15 |

Land and construction in progress are not depreciated.

6. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has four items that qualify for reporting in this category:

- Deferred outflows interest rate swap refunding This amount is related to the hedging derivative instruments associated with the Series 2015-C Bonds. The deferred amount on refunding related to the Series 2015-C Bonds is reported in the Government-wide Statement of Net Position in this category and will be amortized over the life of the debt. The Series 2015-C Bonds refunded the Series 2012-C Bonds, which had previously refunded the Series 2004-C Bonds.
- Deferred outflows interest rate swap The imputed at-market swaps associated with the Series 2015-C Bonds are reported as a deferred outflow of resources at market value.
- Deferred outflows net gain/loss on refunding The net gain/loss on refunding bonds is reported in the Government-wide Statement of Net Position in this category and will be amortized over the life of the shorter of the life of the refunded or refunding debt.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Other Accounting Policies – Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (continued)

6. Deferred Outflows/Inflows of Resources (continued)

• Deferred outflows related to TRS - Reported in the government wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of 1) differences between projected and actual earnings on pension plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over the closed five year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan which is currently 6.90 years.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow or resource (revenue) until that time. The District has one item that qualifies for reporting in this category.

• Deferred inflows related to TRS - Reported in the government wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions; 2) differences between expected and actual actuarial experiences and 3) changes in the proportional share of pension liabilities. These pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan which is currently 6.77 years.

In addition to liabilities, the Balance Sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents unavailable revenues that applies to a future period(s) and so will not be recognized as an inflow or resource (revenue) until that time. The District has two items that qualify for reporting in this category. The unavailable revenue - property taxes and unavailable revenues - SHARS are reported as a deferred inflow of resources and will be recognized as collected.

7. Pensions

The fiduciary net position of the Teacher Retirement System of Texas ("TRS") has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to TRS, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Other Accounting Policies – Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (continued)

8. Long-Term Obligations

In the Government-wide Financial Statements and in the Proprietary Fund types in the Fund Financial Statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, or Proprietary Fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred. Accretion of interest on the capital appreciation bonds is recorded at the accreted value through the end of the fiscal year.

In the Fund Financial Statements, Governmental Fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Transactions Between Funds

Transactions between funds that would be treated as revenues, expenditures or expenses if they involved organizations external to the District are accounted for as revenues, expenditures or expenses in the applicable funds.

Transactions which constitute reimbursements of a fund for expenditures or expenses initially made from that fund, which are properly attributable to another fund, are recorded as expenditures or expenses in the reimbursing fund and as reductions of the expenditures or expenses in the fund that is reimbursed.

Other legally authorized transfers are included in the results of operations of the governmental funds.

10. Compensated Absences – Accumulated Vacation Pay and Sick Leave

The District has a vacation pay policy for twelve-month employees whereby eligible employees shall receive vacation of one to fifteen days dependent upon the number of years of service. Employees become eligible for vacation days after six months of employment. All vacation days are forfeited if not taken by June 30 of the following calendar year; therefore, the liability for unused vacation days at August 31, 2017 is not material to the financial statements.

The District pays a portion of accrued sick leave to employees who retire with five or more years of continuous employment in the District and whose retirement can be verified by the Teachers Retirement System. The compensated absences are normally paid through the General Fund when the amounts are due. Payment is limited to the current salary rate for one-half of the locally accumulated sick leave days up to a maximum of 90 accumulated days.

In the Governmental Funds compensated absences that are expected to be liquidated with expendable available resources are reported as an expenditure and fund liability in the fund that will pay for them. The remainder of the compensated absences liability is reported in long-term liabilities on the statement of net position.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Other Accounting Policies – Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (continued)

11. Fund Equity

Beginning with fiscal year 2011, the District implemented GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions". This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints:

a. Non-spendable Fund Balance

Non-spendable fund balance represents amounts that are not in spendable form or are required to be maintained intact. As such, the inventory and prepaid items have been properly classified in the Governmental Funds Balance Sheet (Exhibit C-1).

b. Restricted Fund Balance

Restricted fund balance consists of amounts that can be spent only for specific purposes because of local, state or federal laws, or externally imposed conditions by grantors or creditors. The Fund balance for the Debt Service Fund, Capital Project Fund, and Child Nutrition Program and other grants are classified as restricted.

c. Committed Fund Balance

Committed fund balances are amounts constrained to specific purposes by the District itself, using its highest decision making authority (the Board of Trustees). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level of action to remove or change the constraint. The General Fund has committed \$5,000,000 for self-insurance purposes. The District has committed the fund balance in the Campus Activity Fund for uses benefitting the respective campuses where the funds were raised.

d. Assigned Fund Balance

Assigned fund balance is the amount the District intends to use for a specific purpose. The Board of Trustees delegates the responsibility to assign fund balances to the Superintendent or his designees. The District has assigned fund balances in the General Fund in the amount of \$45,262,824 which is detailed in Note 12.

e. Unassigned Fund Balance

Amounts that are available for any purpose are considered unassigned fund balance. Positive numbers can only be reported in the general fund.

The District establishes (and modifies or rescinds) fund balance commitments and assignments by passage of resolution. Per the local policy, assigned fund balance amounts are established by the Superintendent or his designee.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Other Accounting Policies – Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (continued)

12. Use of Estimates

The presentation of financial statements, in conformity with Generally Accepted Accounting Principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

13. Data Control Codes

The Data Control Codes refer to the account code structure prescribed by TEA in the Financial Accountability System Resource Guide. The Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide database for policy development and funding plans.

14. Use of Funds

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted as they are needed. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made. The District does not have a formal minimum fund balance policy, however, minimum fund balances and targeted percentages are addressed in Administrative Regulations.

15. Implementation of New Standards

In the current fiscal year, the District implemented the following new standards:

GASB Statement No. 82, *Pension Issues*, an amendment of GASB Statements No. 67, No. 68 and No. 73, addresses the presentation of payroll-related measures in required supplementary information, selection of assumptions and the treatment of deviations from the guidance in an actuarial standard of practice for financial reporting purposes, and the classification of payments made by employers to satisfy employee contribution requirements.

GASB Statement No. 77, *Tax Abatement Disclosures*, requires disclosure of tax abatement information about a reporting government's own tax abatement agreements and those that are entered into by other governments and that reduce the reporting government's tax revenues.

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the Government-wide Statement of Net Position. Major elements of that reconciliation include capital assets which are not financial resources and are therefore not reported in governmental funds, long-term liabilities, including bonds payable, which are not due and payable in the current period and are not reported as liabilities in the Fund Financial Statements, and property taxes receivable which are included as unearned in the Fund Financial Statements are adjusted based on when the tax levy was made and for uncollectible amounts.

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

Exhibit C-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the changes in net position of governmental activities as reported on the Government-wide Statement of Activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the Fund Financial Statements, but should be shown as increases in capital assets and decreases in long-term debt in the Government-wide Statements. This adjustment affects both the net position balance and the change in net position. The debt payments on retirement of debt are recorded as expenditures for Fund Basis Financial Statements but are recorded as a reduction of debt in the Government-wide Financial Statements. The capital asset additions are expenditures in the Fund Basis Financial Statements but are capitalized in the Government-wide Financial Statements. The Fund Basis Financial Statements do not include the current depreciation expense.

Another element of the reconciliation on Exhibit C-4 is described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting. As indicated above, if new debt is issued, it is treated as a source of revenue on the Fund Basis Financial Statements, while in the Government-wide Financial Statements; the amount is recorded as a liability. Property taxes are adjusted for the accrual basis and the unearned revenues are adjusted based on prior year levies and current year uncollectible amounts.

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Data

The Board of Trustees adopts an appropriated budget for the General Fund, Debt Service Fund, and the Nutrition and Food Service Program included in the Special Revenue Fund. Budgets are prepared using the same method of accounting as for financial reporting. The District is required to present the adopted and final amended budgeted revenues and expenditures for the General Fund and each major special revenue program. The General Fund budget report appears in the required supplementary information section where the District compares the final amended budget to actual revenues and expenditures. Per regulatory requirements, the Debt Service Fund and Nutrition and Food Services Fund are required to be reported with the original budget, amended budget and actual expenditures. These schedules are included in the Other Supplementary Information section of this report.

NOTE 3 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

A. Budgetary Data (continued)

The Capital Projects Fund budget is prepared on a project basis based on the proceeds available from bond issues and planned expenditures outlined in applicable bond ordinances. Capital Projects Fund equity, which represents unexpended appropriations, is re-appropriated in the subsequent fiscal year's budget until available funds for acquisition and construction of facilities have been utilized. Each major construction contract is approved based on the existing availability of bond proceeds and/or approved but unissued bonds. The non-budgeted Special Revenue programs (primarily federal, state, and local grant programs) utilize a managerial type financial plan reviewed at the fund level by the Board of Trustees upon acceptance of the grants. These grants are subject to state imposed project length budgets and monitored through submission of reimbursement reports to the state.

The following procedures are followed in establishing the budgetary data reflected in the Fund Financial Statements:

- 1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.
- 3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year.
- 4. Each budget is controlled by the Director of Budget and Treasury at the revenue and expenditure function/object level. Budgeted amounts are amended by the Board. All budget appropriations lapse at year end.
- 5. During the fiscal year ended August 31, 2017 the District did not have any expenditures over appropriations in major funds.
- 6. A reconciliation of fund balances for both appropriated budget and non-appropriated budget Special Revenue Programs is as follows:

| | Special | | Unbudgeted | | Budgeted | | |
|------------------------------------|--------------|------------|------------|------------|----------|------------|--|
| | Revenue Fund | | Programs | | | Programs | |
| Revenues | \$ | 70,713,842 | \$ | 40,228,156 | \$ | 30,485,686 | |
| Expenditures | | 68,496,485 | | 38,223,572 | | 30,272,913 | |
| Revenues Over (Under) Expenditures | | 2,217,357 | | 2,004,584 | | 212,773 | |
| Other Sources (Uses) | | (465,515) | | (500,000) | | 34,485 | |
| Fund Balance Beginning | | 16,378,331 | | 11,422,492 | | 4,955,839 | |
| Fund Balance Ending | \$ | 18,130,173 | \$ | 12,927,076 | \$ | 5,203,097 | |

NOTE 3 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

A. Budgetary Data (continued)

7. During the fiscal year the operating budget must be amended by the Board for changes to function appropriation amounts. All supplemental appropriations must be within limits of available revenues and fund equity.

The following table summarizes changes to the originally adopted budget for all budgeted funds:

| Fund | Sep | ropriations as of tember 1, 2016 riginal Budget) | Ap | ipplemental propriations id Revisions | Appropriations as of August 31, 2017 (Amended Budget) | | |
|--------------------------|-----|--|----|---|---|---------------|--|
| General Fund | \$ | 631,409,405 | \$ | 20,422,648 | \$ | 651,832,053 | |
| Special Revenue Fund | | 31,771,708 | | (535,623) | | 31,236,085 | |
| Debt Service Fund | | 141,599,577 | | 188,586,698 | | 330,186,275 | |
| Total all Budgeted Funds | \$ | 804,780,690 | \$ | 208,473,723 | \$ | 1,013,254,413 | |

B. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded in order to reserve that portion of the applicable appropriation, is used in all governmental funds. Encumbrances outstanding at year-end are commitments that do not constitute expenditures or liabilities, but are reported as assignments of fund balances. Since appropriations lapse at the end of each fiscal year, outstanding encumbrances are appropriately provided for in the subsequent fiscal year's budget to provide for the liquidation of the prior commitments. As shown in footnote 12, \$1,518,503 of fund balance has been assigned for these outstanding encumbrances.

NOTE 4 – DEPOSITS (CASH) AND INVESTMENTS

A. Deposits (Cash)

Deposits and investment transactions of the District are regulated by State statutes of the Texas Education Code and other regulations regarding security for District funds in depository institutions.

In accordance with applicable statutes, the District has a depository contract with an area bank (depository) providing for interest rates to be earned on deposited funds and for banking charges the District incurs as a result of banking services received. All depository contracts have a term of two years, commencing with the start of every odd-numbered fiscal year. However, the contract can be extended for two additional two year periods should the depository and the District agree to the extension. Depository contracts are awarded on the basis of competitive proposals received from area banks and can be awarded to more than one bank.

The District may place funds with the depository in interest and non-interest bearing accounts. Statutes and the depository contract require that all funds in the depository institution be fully secured by federal depository insurance or a combination of federal depository insurance and acceptable collateral securities and/or an acceptable surety bond. The collateral securities are placed with an independent third party custodian or trustee institution. In accordance with State statutes pertaining to lawful collateralization of District deposits, safekeeping receipts are issued in the name of the depository with proper identification that the collateral securities are pledged by the depository to secure funds of the District.

NOTE 4 – DEPOSITS (CASH) AND INVESTMENTS (continued)

A. Deposits (Cash) (continued)

Acceptable collateral securities include direct obligations of the United States of America (U.S.), bonds of any agency of the U.S., bonds of the State of Texas or of any county, school district, city, or town of the State of Texas that have been rated A or better and other securities as authorized by Chapter 2257 Collateral for Public Funds of the Government Code and Chapter 2256 Public Fund Investment Act.

The District may approve all collateral securities prior to their being pledged. The depository can release or replace collateral securities pledged to secure District funds only upon obtaining the written approval of the District.

All demand and time deposits in the depository bank were entirely covered by federal depository insurance and by acceptable collateral securities pledged in the District's name by Prosperity Bank and held in safekeeping by Federal Home Loan Bank of Dallas at year-end in accordance with provisions of the depository contract.

At August 31, 2017 the cash in the bank was \$339,683,517. As of August 31, 2017 the deposits and amount of pledged collateral and FDIC coverage was as follows:

| | Carrying Amount | | Pledged Collateral | | Available | |
|-----------------------|-----------------|-------------|--------------------|-------------|------------|-----------------|
| | of Combined | | and Surety | | FDIC | |
| Financial Institution | | Deposit | | Bond | Coverage | Month |
| Prosperity Bank | \$ | 335,828,334 | \$ | 553,346,118 | \$ 500,000 | August 31, 2017 |

B. Investments

The Board of Trustees of the District has adopted a written investment policy (the "Investment Policy") regarding the investment of the funds as defined in the Public Funds Investment Act of 1995 (Chapter 2256, Texas Government Code). The Public Funds Investment Act requires an annual audit of investment practices. Audit procedures in this area, conducted as part of the audit, disclosed that in the area of investment practices, management reports, and establishment of appropriate policies, the District was in substantial compliance with the requirements of the Act. Additionally, the investments and investment practices of the District are in compliance with the Trustees' Investment Policy.

The District's Investment Policy emphasizes safety of principal and liquidity, addresses investment diversification, yield, and maturity and addresses the quality and capability of investment personnel. The Investment Policy includes a list of authorized investment instruments, a maximum allowable stated maturity of any individual investment and the maximum average dollar weighted maturity allowed for fund groups.

The District is authorized to invest in the following investment instruments:

- 1. Obligations of, or guaranteed by, the U.S. Government and its agencies and instrumentalities as permitted by Government Code 2256.009. This excludes collateralized mortgage obligations. Maximum maturity shall be three years.
- 2. Certificates of deposit and share certificates as permitted by Government Code 2256.010.
- 3. Fully Collateralized repurchase agreements as permitted by Government Code 2256.011.
- 4. A1/P1 Commercial paper as defined by Government Code 2256.013 and not to exceed 60 days to maturity.

NOTE 4 – DEPOSITS (CASH) AND INVESTMENTS (continued)

B. Investments (continued)

- 5. No-load money market mutual funds as permitted by Government Code 2256.014.
- 6. Constant dollar public funds investment pools as permitted by Government Codes 2256.016 2256.019.

A summary of the District's cash and investments at August 31, 2017 is shown below.

| | Cash Bank | | Investment | |
|--------------------------------------|-----------|-----------------|----------------|----------------|
| | on Hand | Deposits | Pools | Total |
| General | \$ 39,565 | \$ 86,522,047 | \$ 134,735,174 | \$ 221,296,786 |
| Debt Service | | 4,927,703 | 48,511,394 | 53,439,097 |
| Capital Projects | | 232,329,414 | | 232,329,414 |
| Special Revenue Fund | 100 | 2,279,422 | 12,251,248 | 14,530,770 |
| Total Governmental Funds | 39,665 | 326,058,586 | 195,497,816 | 521,596,067 |
| Internal Service Fund | | 7,033,281 | 9,909,618 | 16,942,899 |
| Total Governmental Activities | 39,665 | 333,091,867 | 205,407,434 | 538,538,966 |
| Fiduciary Funds | | | | |
| Trust and Agency | | 2,736,467 | | 2,736,467 |
| Total | \$ 39,665 | \$ 335,828,334 | \$ 205,407,434 | \$ 541,275,433 |

The District generally holds all securities to maturity. The District did not purchase any derivative investment products during the current year nor participate in any reverse repurchase agreements or security lending agreements during the fiscal year 2017.

The following table includes the portfolio balances, credit rating, and weighted average maturity of the portfolio balance by investment type of the District as of August 31, 2017:

| | | Fair | Weighted |
|--|--------|----------------|---------------|
| | Rating | Value | Avg. Maturity |
| Lone Star - Public Funds Investment Pool | AAAm | \$ 6,098,690 | 22 days |
| TexPool - Public Funds Investment Pool | AAAm | 161,768,084 | 32 days |
| Texas CLASS - Public Funds Investment Pool | AAAm | 37,540,660 | 56 days |
| Total Investments and Cash Equivalent | | \$ 205,407,434 | |
| | | | |

As of August 31, 2017, the District's investments included TexPool, Texas CLASS, and Lone Star Public Funds Investment Pools. The investment pools investments are not evidenced by securities that exist in physical or book entry form and, accordingly, do not have custodial risk.

Investment Pool policies require that local government deposits be used to purchase investments authorized by the Public Funds Investment Act of 1987, as amended. Oversight responsibility for TexPool is provided by The Texas State Comptroller of Public Accounts, for Texas CLASS by an advisory board and member elected Board of Trustees, and for Lone Star by The Texas Association of School Boards.

NOTE 4 – DEPOSITS (CASH) AND INVESTMENTS (continued)

B. Investments (continued)

The value of District portions in TexPool, Texas CLASS, and Lone Star are the same as the value of the Shares. The external pooled funds use amortized cost rather than fair value to report net assets to compute share price, such funds have daily liquidity.

Credit Risk Related to Investments

Credit risk is the risk that another party to a deposit or investment transaction will not fulfill its obligations. This is not to be confused with market risk, which is the risk that the market value of an investment, collateral protecting a deposit, or securities underlying a repurchase agreement, will decline. Market risk is not depicted in this note.

In compliance with GASB 40, local policy also addresses credit risk by monitoring investment diversification through specific identification disclosure and weighted average maturity disclosure.

As of August 31, 2017, TexPool, Texas CLASS, and Lone Star represented 78.7%, 18.3%, and 3.0 %, respectively, of the General Fund, Debt Service Fund, Capital Projects Fund, Special Revenue Fund, Internal Service Fund and Fiduciary Fund investments pools and are rated AAAm by Standard and Poor's.

The District's investment policy permits investment pools authorized by government codes 2256.016 – 2256.019 which requires investment pools to be continuously rated no lower than AAA or AAAm or at an equivalent rating by at least one nationally recognized rating service.

In accordance with GASB Statement No. 79, Certain External Investment Pools and Pool Participants, the Local Government Investment Pools do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amount. These pools do not impose any liquidity fees or redemption gates.

Interest Rate Risk

As a means of minimizing risk of loss due to interest rate fluctuations, the District's Investment Policy requires that investment maturities in the General Fund, Debt Service Fund, Capital Projects Fund, and Special Revenue Fund will not exceed the lesser of a dollar weighted average maturity of 365 day or the anticipated cash flow requirements of the fund. The District's Investment Policy also limits that no investment shall have a maturity greater than three years from the date of purchase.

As of August 31, 2017, 37.9% of the entire portfolio was invested in AAAm rated public investment pools. The dollar weighted average maturity of the pools was 36 days, which is less than the threshold of 180 days.

NOTE 4 – DEPOSITS (CASH) AND INVESTMENTS (continued)

B. Investments (continued)

Custodial Credit Risk

The District's agent holds the securities in the General Fund, Debt Service Fund, Capital Projects Fund, and Special Revenue Fund in the District's name; therefore, the District is not exposed to custodial credit risk. Custodial credit risk for investments is the risk that, in event of the failure of the counterparty (e.g. broker dealer) to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of another party. The District's policy requires that a third party custodian or a bank trust department hold all securities owned by, or pledged as collateral to the District.

NOTE 5 – PROPERTY TAXES

The current assessment ratio of the District is 100% of market valuation of all property within the District's boundaries. The local maintenance and debt service tax rates for the 2016-17 school year were \$1.1266 and \$0.39 respectively per \$100 of assessed valuation. The 2016-17 assessed valuation was \$36,351,443,912 and resulted in a final adjusted tax levy of \$540,445,558.

Property taxes are levied by October 1 on the assessed value listed the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a lien attaches to the property to secure the payment of all taxes, penalties, and interest ultimately imposed. Local taxes assessed on valuations made as of January 1 each year are recorded in the District's Financial Statements net of the related allowance for uncollectible taxes. The resulting net taxes receivable is stated at the amount estimated to be collectible based upon the District's collection experience. Uncollectible taxes are periodically reviewed and written off by the District, as provided by specific statutory authority from the State Legislature. Net property taxes receivable at August 31, 2017 consisted of the following:

| | General | Debt Service | 75. 4 I |
|---|--------------|--------------|--------------|
| | Fund | Fund | <u>Total</u> |
| Property Taxes Receivable-Current Year Levy | \$ 2,695,802 | \$ 933,197 | \$ 3,628,999 |
| Property Taxes Receivable-Prior Years' Levies | 3,877,959 | 1,345,157 | 5,223,116 |
| Total Property Taxes Receivable | 6,573,761 | 2,278,354 | 8,852,115 |
| Penalty and Interest on Delinquent Property Taxes | 3,289,657 | 1,122,601 | 4,412,258 |
| Total Property Taxes and Penalty and Interest | 9,863,418 | 3,400,955 | 13,264,373 |
| Less Allowance for Uncollectible Taxes | 2,771,445 | 949,610 | 3,721,055 |
| Net Property Taxes Receivable | \$ 7,091,973 | \$ 2,451,345 | \$ 9,543,318 |

NOTE 5 – PROPERTY TAXES (continued)

Appraisal District

The Texas Legislature in 1979 adopted a comprehensive Property Tax Code which established an appraisal district and an appraisal review board in each county in the State of Texas. The District has property in Harris, Fort Bend, and Waller Counties. Beginning January 1, 2008 the District contracted with each county for the appraisal of property for all taxing units in the county's boundaries, including the District. The District paid Harris County Appraisal District, Fort Bend County Appraisal District, and Waller Country Appraisal District \$2,233,327, \$1,386,578 and \$231,317 respectively in fiscal 2017 for appraising property.

NOTE 6 – AMOUNTS DUE TO/FROM OTHER FUNDS AND INTERFUND TRANSFERS

Amounts Due To/From Other Funds at August 31, 2017 include the following:

| | Interfund Receivables | | | Interfund Payables | | |
|----------------------------|--------------------------|------------|----|--------------------|--|--|
| General Fund | \$ | 22,359,661 | \$ | | | |
| Debt Service Fund | | 943,372 | | | | |
| Capital Projects Fund | | | | 23,768,024 | | |
| Special Revenue Fund | | 6,307,405 | | 6,558,572 | | |
| Total - Governmental Funds | | 29,610,438 | | 30,326,596 | | |
| Internal Service Fund | | 716,161 | | 3 | | |
| Total - All Funds | \$ | 30,326,599 | \$ | 30,326,599 | | |

The District uses the General Fund cash account for accounts payable and payroll, creating interfund balances. The interfund balances are cleared monthly. Most of the amounts represent short-term borrowings between funds for payroll and operating expense payments made from the General Fund cash accounts. For the year ended August 31, 2017, the District was unable to clear some of the interfund balances before year end due to the District closure for Hurricane Harvey. These balances were transferred after the District returned to normal operations.

Transfers between funds in fiscal year 2017 are as follows:

| | Transfers In | | | ansfers Out |
|---------------------------------|--------------|-----------|----|-------------|
| Governmental Funds: | | | | |
| General Fund | \$ | 500,000 | \$ | 6,014,561 |
| Debt Service Fund | | 4,130,440 | | |
| Capital Projects Fund | | | | 1,115,879 |
| Special Revenue Fund: | | | | |
| Tax Increment Reinvestment Zone | | | | 500,000 |
| Total - Governmental Funds | | 4,630,440 | | 7,630,440 |
| Internal Service Fund | | 3,000,000 | | |
| Total - All Funds | \$ | 7,630,440 | \$ | 7,630,440 |

Transfers are used to: 1) move interest revenues from the Capital Projects Fund where they are collected to the Debt Service Fund for payment of principal and interest, 2) move the federal subsidy payment on the Build America Bonds from the General Fund to the Debt Service Fund for payment of principal and interest, 3) provide supplemental funding from the General Fund to the Health Insurance Internal Service Fund and, 4) to move funds from the Tax Increment Reinvestment Fund program to General Fund.

NOTE 7 – AMOUNTS DUE FROM AND TO OTHER GOVERNMENTS

Receivables Due from Other Governments at August 31, 2017 consisted of the following:

| | General Fund | Debt Service Fund | Capital Projects Fund | Special Revenue Fund | Total |
|------------------------------------|-----------------|-------------------------|-----------------------------|----------------------------|---------------|
| Due from State Agencies: | | | | | |
| State Grant Expenditure | | | | | |
| Reimbursement | \$ | \$ | \$ | \$ 2,735,020 | \$ 2,735,020 |
| State Summary of Finances | 5,057,156 | 53,147 | | | 5,110,303 |
| School Health and Related Services | 6,444,797 | | | | 6,444,797 |
| Due from Federal Agencies: | | | | | |
| Federal Grant Expenditure | | | | | |
| Reimbursement | 157,650 | | 657,933 | 4,633,558 | 5,449,141 |
| Due from Local Agencies: | | | | | |
| Local Grant Expenditure | | | | | |
| Reimbursement | | | | 116,339 | 116,339 |
| Total Due from Other | | | | | |
| Governments | \$ 11,659,603 | \$ 53,147 | \$ 657,933 | \$ 7,484,917 | \$ 19,855,600 |

Payables Due to Other Governments at August 31, 2017 consisted of the following:

| | General Fund | Re | oecial evenue Tund | Total |
|--|------------------------------|----|--------------------------|------------------------------|
| Due to Federal Agencies: Early Childhood Intervention Due to Local Agencies: | _ | \$ | 383 | \$ 383 |
| Katy Development Authority | \$ 3,408,253 3,408,253 | \$ | 383 | \$ 3,408,253 3,408,636 |

NOTE 8 – CAPITAL ASSETS

Capital asset activity for the governmental activities of the District for the year ended August 31, 2017 is as follows:

| | Balance September 1, 2016 | | Additions | Retirements tions and Transfers | | Balance August 31, 2017 |
|---------------------------------------|---------------------------------|---------------|-------------------|---------------------------------|--------------|-------------------------------|
| Governmental Activities | | | | | | |
| Capital Assets not being Depreciated: | | | | | | |

As explained in Note 3, encumbrance accounting is utilized to assure effective budgetary control. As of August 31, 2017 the General Fund had \$1,518,503, the Capital Projects Fund had \$84,829,549 and Special Revenue Fund had \$4,324,729 in outstanding encumbrances.

NOTE 9 – LONG-TERM DEBT

General Obligation Bonds

General long-term debt of the District consists of General Obligation Bonds which provide funds to construct, acquire, and equip school buildings, to purchase necessary sites for school buildings, and to purchase school buses. Certain outstanding bonds may be redeemed at their par value prior to their normal maturity dates in accordance with the terms of the related bond orders. The District has never defaulted on any principal or interest payment.

In November 2014 voters authorized \$748,120,000 of General Obligation Bonds and in May 2017, the District issued \$261,640,000 of Unlimited Tax School Building Bonds, Series 2017. The bonds have interest rates ranging from four to five percent and are the final sale of the 2014 authorization. The District has no authorized but unissued bonds remaining at August 31, 2017.

General long-term debt consists of bonds payable and accretion of capital appreciation bonds. Bonds are payable solely from revenues of the Debt Service Fund which consists primarily of property taxes collected by the District, state existing debt and instructional facilities allotments, and investment income. The capital lease is paid from General Fund property tax revenues generated within the Tax Increment Reinvestment Zone.

NOTE 9 – LONG-TERM DEBT (continued)

Changes in Long-Term Debt

A summary of long-term debt transactions of the District for the year ended August 31, 2017 is as follows:

| | Balance at September 1, | | | Balance at August 31, | Due Within |
|------------------------------|-------------------------|----------------|----------------|-----------------------|---------------|
| | 2016 | Additions | Retirements | 2017 | One Year |
| General Obligation Bonds | \$ 1,449,414,330 | \$ 425,465,000 | \$ 253,302,540 | \$ 1,621,576,790 | \$ 51,306,790 |
| Accreted Interest on Capital | | | | | |
| Appreciation Bonds | 5,602,776 | 194,740 | 2,962,461 | 2,835,055 | 2,835,055 |
| Imputed Borrowing | 31,534,324 | | 2,466,186 | 29,068,139 | 2,466,195 |
| Bond Issuance Premiums | 128,684,350 | 56,189,555 | 9,242,244 | 175,631,661 | |
| Total Bonds Payable | 1,615,235,780 | 481,849,295 | 267,973,431 | 1,829,111,645 | 56,608,040 |
| Capital Leases | 12,690,000 | | 1,255,000 | 11,435,000 | 1,290,000 |
| Compensated Absences | 24,440,991 | 363,189 | 956,570 | 23,847,610 | 530,604 |
| Total | \$ 1,652,366,771 | \$ 482,212,484 | \$ 270,185,001 | \$ 1,864,394,255 | \$ 58,428,644 |

The District is in compliance with all significant bond and note limitations and restrictions.

Outstanding bonded debt at August 31, 2017 consisted of the following:

| | | Interest | | Debt |
|---------------|--|-------------|---------|------------------|
| Issue | Series Description | Rate | Matures | Outstanding |
| \$ 23,055,000 | 2005-A Unlimited Tax Refunding Bonds | 3.00-5.25 % | 2018 | \$ 1,802 |
| 29,685,000 | 2005-B Unlimited Tax Refunding Bonds | 3.00-5.25 | 2018 | 94,988 |
| 61,395,000 | 2007-C Limited Tax Refunding Bonds | 4.00-5.63 | 2027 | 32,760,000 |
| 97,700,000 | 2008-C Unlimited Tax School Building Bonds | 2.75-5.00 | 2019 | 6,975,000 |
| 24,315,000 | 2009 Unlimited Tax School Building Bonds | 2.00-5.00 | 2019 | 1,190,000 |
| 68,910,000 | 2010-A Unlimited Tax Refunding Bonds | 2.00-5.00 | 2022 | 30,830,000 |
| 11,625,000 | 2010-B Limited Tax Refunding Bonds | 3.00-5.00 | 2027 | 3,410,000 |
| 41,470,000 | 2010-C Unlimited Tax School Building Bonds | 4.00-5.00 | 2021 | 11,160,000 |
| 155,000,000 | 2010-D Unlimited Tax School Building Bonds | 4.50-5.30 | 2041 | 155,000,000 |

NOTE 9 – LONG-TERM DEBT (continued)

Interest Rate Swap Agreements

Variable Interest Rate Bonds Synthetic Fixed Rate Swaps

On July 28, 2004 as a means to reduce its borrowing cost in comparison to the issuance of traditional fixed rate bonds, the District entered into two identical pay fixed/receive variable rate swap agreements on the District's \$115,000,000 Variable Rate Unlimited Tax School Building Bonds, Series 2004-C ("2004-C Bonds"). The swap agreements and the bonds were issued at the same time. The swap agreements are with JP Morgan Chase Bank, N.A. and Bank of America, N.A., each in an original notional amount of \$57,500,000 in order to synthetically fix the interest obligations on the variable interest bonds.

On July 17, 2012 the District refunded the 2004-C Bonds with the \$115,000,000 Variable Rate Unlimited Tax Refunding Bonds, Series 2012-C ("2012-C Bonds") in order to mitigate bank risk while increasing the effectiveness of the hedging derivative.

On March 18, 2015 the District refunded the 2012-C Bonds with the \$115,000,000 Variable Rate Unlimited Tax Refunding Bonds, Series 2015-C ("2015-C Bonds") in order to continue to mitigate bank risk while lowering borrowing costs.

Objective

The objective of the swaps is to hedge against the potential of rising interest rates in conjunction with the District's \$115,000,000 outstanding variable rate debt. The interest rate swaps were effective hedges as of the prior reporting period with each swap's cumulative change in fair value recorded in deferred outflows on the Statement of Net Position. The refunding of the 2004-C and 2012-C Bonds were considered termination events as described in Governmental Accounting Standards Board (GASB) Statement 53. As of the refunding date the swaps were considered to be off-market, consisting of an imputed at-the-market swap and an imputed borrowing. The fair values of the derivative instruments outstanding at August 31, 2017 and the changes in fair values for the year then ended are as follows:

| | Fair Value at August 31, 2017 | | | | | |
|---|---------------------------------------|----|------------|--|--|--|
| Governmental Activities | Classification | | Amount | | | |
| Cash Flow Hedge: | | | | | | |
| Pay fixed interest rate swap | Liability: Interest Rate Swaps | \$ | 415,826 | | | |
| | Liability: Imputed Borrowing | | 29,068,139 | | | |
| | Negative Fair Value | \$ | 29,483,965 | | | |
| | Changes in Fair Valu | ıe | | | | |
| Governmental Activities | Classification | | Amount | | | |
| Cash Flow Hedge: Pay fixed interest rate swap | Deferred Outflows: Interest Rate Swap | \$ | 7,176,789 | | | |

NOTE 9 – LONG-TERM DEBT (continued)

Interest Rate Swap Agreements (continued)

Terms

The swaps notional amounts total \$115,000,000, the principal amount of the associated 2015-C Bonds. The District's swap agreements contain scheduled reductions to outstanding notional amounts that follow anticipated payments of principal of the 2015-C Bonds in varying amounts during the years 2019 to 2036. Under the terms of the swaps, the District will pay a fixed rate of 3.92% and receive a floating rate equal to 67% of the one-month London Interbank Offered Rate (LIBOR) Index. All agreements were effective July 28, 2004, the date of issuance of the 2004-C Bonds. The termination date is August 15, 2036.

For the fiscal year ending August 31, 2017 the effective rate of the bonds associated with the swaps is as follows:

D (D ')

| | Terms | Rate Paid (Received) |
|--|-------------|-------------------------|
| Fixed rate paid for swaps | | 3.92% |
| Average variable rate payment received from counterparties | LIBOR x 67% | (0.58) |
| Net rate paid/(received) for swaps | | 3.34 |
| Average variable rate paid on bonds associated with swaps | | 1.11 |
| Effective rate of bonds associated with swaps | | 4.45% |

In contrast, the fixed rate the District would have paid on General Obligation Bonds at a comparable maturity on the same original sale date in 2004 would have been 5.15%. The savings in interest expenditures realized by participating in the swap agreement ranges from \$6.0 million to \$18.3 million as compared to costs the District would have incurred if the debt had been issued as traditional fixed rate bonds at the time of original issuance.

Fair Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Because LIBOR interest rates have declined since inception of the swaps, the swaps had a negative fair value of \$29,483,965 on August 31, 2017 (Level 2 inputs). This value was calculated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates.

Credit Risk

As of August 31, 2017, the District was not exposed to credit risk because the swaps had a negative fair value. However, should interest rates increase and the fair value of the swaps become positive, the District would be exposed to credit risk on the swaps in the amount of its fair value.

NOTE 9 – LONG-TERM DEBT (continued)

Interest Rate Swap Agreements (continued)

Basis Risk

The 2015-C Bonds were issued as Floating Rate Notes. During the initial rate period ending August 14, 2019, the interest rate on the hedged bonds is indexed to 67% of one-month LIBOR with monthly rate resets plus a constant of 55 basis points. The reference rate on the floating leg of each hedging derivative is also 67% of one-month LIBOR with monthly rate resets. Because the variable amount the District is paying and receiving are both based on the same index, the District is not exposed to basis risk.

Interest Rate Risk

Interest payments on the hedged variable-rate debt are expected to increase (decrease) as LIBOR rates increase (decrease). Because the variable amount the District is paying and receiving are both based on 67% of one-month LIBOR, the District's exposure to interest rate risk is mitigated.

Termination Risk

The District has the unilateral right to voluntarily terminate the swap agreements at any time over their term at the then prevailing market value. A counterparty may only terminate a swap if the District fails to perform under the terms of the contract. The District's options are to terminate with the swap providers at an agreed market value, assign the Swap to a third party based on bids or quotes, or enter into an off-setting swap transaction. If the swap should be terminated, the associated variable-rate bonds would no longer carry synthetic fixed interest rates. Also, if at the time of the termination the swap has a negative fair value, the District would be liable to the counterparty for a payment equal to the swap's fair value. The negative fair value of the swap agreements does not expose the District to a loss because it is unlikely the District would exercise its termination rights when the fair value is negative. However, should interest rates change and the fair value of the swap agreements become positive, the District would receive payment of the fair value if the agreements were terminated.

The swap agreements are subject to termination in the event of default or if the ratings assigned to either the District's or the counterparty's unenhanced long-term debt obligations are withdrawn or reduced to BBB- by S&P or Baa3 by Moody's. At August 31, 2017, the credit rating assigned to JP Morgan Chase Bank, N.A. is A+ by S&P and Aa3 by Moody's, while the credit rating assigned to Bank of America, N.A. is A1 by S&P and Aa3 by Moody's.

Remarketing and Rollover Risk

The 2015-C Bonds will bear interest initially at the rate of 67% of one-month LIBOR plus 55 basis points from March 18, 2015 through and including August 14, 2019. The bonds do not require a liquidity agent or a remarketing agent for that time period and therefore the District is not exposed to remarketing risk during the initial rate period.

Thereafter, the bonds will bear interest at a LIBOR rate determined by a remarketing agent to be selected by the District before the end of the initial rate period. In the event the remarketing agent at the conversion date cannot remarket the bonds, the District does not have any obligation to purchase the bonds at that time. In this event, the bonds that have been unsuccessfully remarketed will bear interest at a rate of eight percent.

The District's 2015-C Bonds and swaps have matching notional maturity dates of August 15, 2036; therefore, the District is not exposed to rollover risk at this time.

NOTE 9 – LONG-TERM DEBT (continued)

Interest Rate Swap Agreements (continued)

Swap Payments and Associated Debt

As of August 31, 2017 the following are debt service requirements assuming current interest rates during the initial rate period, and rates returning to pre-refunding rates thereafter.

| Fiscal Year Ending | Principal | Principal Interest* | |
|--------------------|----------------|---------------------|----------------|
| 2018 | \$ | \$ 5,140,500 | \$ 5,140,500 |
| 2019 | 2,500,000 | 5,140,500 | 7,640,500 |
| 2020 | 4,550,000 | 5,401,805 | 9,951,805 |
| 2021 | 4,750,000 | 5,169,073 | 9,919,073 |
| 2022 | 4,960,000 | 4,948,440 | 9,908,440 |
| 2023-2027 | 28,400,000 | 20,949,234 | 49,349,234 |
| 2028-2032 | 35,380,000 | 13,502,757 | 48,882,757 |
| 2033-2036 | 34,460,000 | 4,219,188 | 38,679,188 |
| Total | \$ 115,000,000 | \$ 64,471,497 | \$ 179,471,497 |

^{*}Initial rate period (through August 14, 2019) budgeted at 4.47%. Assumes 3.92% synthetic fixed rate and .55% constant. Variable rate payments and receipts negate as they are based on the same index and percentage.

Thereafter (August 15, 2019 through August 15, 2036) budgeted at 4.795%. Assumes 3.92% synthetic fixed rate. .40% liquidity fees. .35% budgeted reserve, and .125% remarketing fees.

Accreted Interest on Premium Capital Appreciation Bonds

A portion of the Series 2005 and 2007 refunding bonds are capital appreciation bonds. These obligations have a principal value of \$96,790 and a maturity value of \$3,000,000. The interest on these obligations will be paid upon maturity in the fiscal year ending August 31, 2018. The accreted value of these bonds at August 31, 2017 is \$2,931,846 including accreted interest on these bonds of \$2,835,055, which is reflected in the accompanying general long-term debt accounts.

Current Year Refunding

In December 2016 the District issued \$11,510,000 in Limited Tax Refunding Bonds, Series 2016-C. This refunding was treated as a current refunding. The refunding bonds have an average interest rate of 5.00% and were issued to refund outstanding Series 2008-B Bonds with an average interest rate of 4.15%. This refunding reduced the District's total debt service payment by \$588,553 for an economic gain of \$529,002 (difference between the present values of the debt service payments on the old and new debt). The deferred charge on this refunding is \$404,178 and is being amortized over 7 years. The escrow proceeds of \$12,435,636 were recorded as debt service expenditures and not other financing uses since the refunding date is within 90 days of the call date of the defeased bonds.

NOTE 9 – LONG-TERM DEBT (continued)

Current Year Refunding (continued)

Also in December 2016 the District issued \$152,315,000 in Unlimited Tax Refunding Bonds, Series 2016-D. This refunding was treated as a current refunding. The refunding bonds have an average interest rate of 4.78% and were issued to refund \$171,925,000 of portions of outstanding Series 2007-B and Series 2008-A bonds with an average interest rate of 4.52%. This refunding reduced the District's total debt service payment by \$25,147,944 for an economic gain of \$19,480,057 (difference between the present values of the debt service payments on the old and new debt). The deferred charge on this refunding is \$6,309,521 and is being amortized over 15 years. The escrow proceeds of \$175,723,176 were recorded as debt service expenditures and not other financing uses since the refunding date is within 90 days of the call date of the defeased bonds.

Prior Year Advanced Refunding of General Long-Term Debt

In prior years the District defeased certain outstanding School Building and Refunding Bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the respective trust account assets and the liability for the defeased bonds are not included in the District's Financial Statements. At August 31, 2017 approximately \$57.2 million previously refunded bonds outstanding are considered defeased.

Current Year Redemption of General Long-Term Debt

In 2017, the District paid off \$25,275,000 of outstanding bonds consisting of \$3,800,000 of the Series 2007-C Limited Tax Refunding Bonds, and \$21,475,000 of the Series 2012-B Variable Rate Unlimited Tax Refunding Bonds. The Series 2007-C Bonds were scheduled to mature in fiscal year ending 2022 and the Series 2012-B Bonds were scheduled to mature in fiscal years ending 2025 through 2028.

The payment of these bonds in 2017 resulted in gross interest savings of \$10,514,875.

Build America Bonds

In February 2009, as part of the American Recovery and Reinvestment Act of 2009, Congress added Sections 54AA and 6431 to the Internal Revenue Code of 1986, which permit state and local governments to obtain certain tax advantages when issuing taxable obligations that meet certain requirements of the Code and the related Treasury regulations. Such obligations are referred to as Build America Bonds (BABs).

In December 2010, the District issued Series 2010-D Bonds in the amount of \$155,000,000 under the BABs program. Under this program, the District receives semi-annual subsidies equal to 35% of the interest it pays on the bonds. The subsidy payments received by the District will not be pledged as security for the payment of the Series 2010-D Bonds and no holder of the Series 2010-D Bonds will be entitled to a tax credit or any subsidy payment with respect to the Series 2010-D Bonds. The District intends to use the subsidy payments for any lawful purpose, which may include payment of principal and interest on the Series 2010-D Bonds. In the fiscal year ended August 31, 2017 the District received \$3,014,561 in such subsidies. This includes a reduction of the 2016-17 subsidy payments by 6.9% due to federal sequestration. The amount received was recorded as federal revenue in the General Fund and, at the discretion of the District, was transferred to the Debt Service Fund. The sequestration reduction percentage for 2018 has been set at 6.6%.

NOTE 10 – COMMITMENT TO FINANCE MULTI-PURPOSE COMPLEX THROUGH PARTICIPATION IN TAX INCREMENT REINVESTMENT ZONE AGREEMENTS

Under a series of agreements, the District agreed to provide funding to finance \$25,590,000 of tax-exempt bonds issued in September 2002 by the Katy Development Authority (KDA). The Bonds are legally described as The Katy Development Authority Tax Increment Contract Revenue Bonds (Katy ISD Contract), Series 2002. The Bonds were issued pursuant to the terms and conditions of a Bond Resolution approved by the KDA Board. The issuance of the bonds was approved by the Zone Board and the City Council of the City of Katy (City). In June 2012 the KDA refunded the \$18,800,000 outstanding Series 2002 Bonds by issuing Series 2012 Refunding Bonds in the amount of \$17,360,000.

Capital Lease Arrangement

The arrangements under the series of agreements constitute a capital lease arrangement for the District in constructing a multi-purpose complex and this arrangement is not altered by the refunding. The District recorded a capital lease obligation and a related asset in the approximate amount of the original bonds. Total assets under capital lease at August 31, 2017 were \$23,017,773. Of that amount \$22,364,926 is classified as Buildings and Improvements, \$480,341 as Furniture and Equipment and \$172,506 as Land Improvements.

The bond proceeds were used to construct a multi-purpose complex for large District functions. It is also available for rent by outside entities. Although the KDA legally owns the multi-purpose center, the agreements provide that the District lease, construct, and control the use of this facility during the life of the bonds issued to construct it. Ownership of the multi-purpose complex will revert to the District once the bonds are retired. District collected tax increments from the General Fund will be used to pay the debt during this term through a lease arrangement between the District and the KDA. No rent paid to the District for use of the multi-purpose complex will be pledged as security for the bonds.

Pursuant to an Amended and Restated Interlocal Agreement between the City and the District (the Interlocal Agreement), the District has agreed to pay to the City for deposit to a special account of the Tax Increment Fund established for the Zone (the Tax Increment Fund) certain of its tax collections resulting from its taxation of the increase, if any, in the appraised value of real property located in the Zone since the designated base year of 1997 (the District Tax Increments). The City, the KDA, and the Zone have entered into an agreement (the Tri-Party Agreement) which sets forth, among other things, the agreement of the City on behalf of itself and the Zone, to pay to the KDA the District Tax Increments. Once debt service on the bonds for the current bond year has been deposited and the applicable fees have been paid, the District may use any surplus as specified in the Interlocal Agreement.

The KDA has pledged to the payment of the bonds all of its rights to the District Tax Increments and all of its rights in the project and project site.

NOTE 10 – COMMITMENT TO FINANCE MULTI-PURPOSE COMPLEX THROUGH PARTICIPATION IN TAX INCREMENT REINVESTMENT ZONE AGREEMENTS (continued)

Capital Lease Arrangement (continued)

Significant aspects of the bonds/capital lease obligation of the District as of August 31, 2017 are shown below:

| | | | Maturity Date | Interest | | |
|--------|----|-------------|---------------|-------------------|-------------|--------------|
| | | Amount | Interest | Serially, | Payment | Callable |
| Series | | Outstanding | Rates | Beginning/Ending_ | Dates | Dates |
| 2012 | \$ | 11,435,000 | 2.88% | 5/15/18 to | May 15/ | 2017* |
| | | | | 5/15/25 | November 15 | 2020** |

^{*}Bonds maturing on or after May 15, 2017 through May 15, 2020 are subject to redemption at a price of 102% of par value plus unpaid accrued interest from the most recent interest payment date to the date fixed for redemption.

The debt service requirements on the bonds/capital lease obligation of the District are as follows:

| Fiscal Year Ended August 31, | Principal | Interest | D | Annual ebt Service |
|------------------------------|------------------|-----------------|----|-----------------------|
| 2018 | | | | |
| 2018 | \$ 1,290,000 | \$ 329,328 | \$ | 1,619,328 |
| 2019 | 1,325,000 | 292,176 | | 1,617,176 |
| 2020 | 1,365,000 | 254,016 | | 1,619,016 |
| 2021 | 1,405,000 | 214,704 | | 1,619,704 |
| 2022 | 1,445,000 | 174,240 | | 1,619,240 |
| 2023 | 1,490,000 | 132,624 | | 1,622,624 |
| 2024 | 1,535,000 | 89,712 | | 1,624,712 |
| 2025 | 1,580,000 | 45,504 | | 1,625,504 |
| Total | 11,435,000 | 1,532,304 | | 12,967,304 |
| Less: Current Portion | 1,290,000 | 329,328 | | 1,619,328 |
| Long Term Lease | \$ 10,145,000 | \$ 1,202,976 | \$ | 11,347,976 |

The average annual calendar debt service on the bonds is \$1,620,913 through maturity. The maximum annual calendar debt service on the bonds is \$1,625,504 through maturity.

Through the fiscal year ended August 31, 2017, the District has paid \$43,372,800 in collected tax increments and state revenues to the KDA. The District will pay additional tax increments of \$2,355,425 collected in fiscal 2016-17 and state revenues of \$1,052,477 to the KDA in fiscal 2017-18, and these amounts have been included as a liability in these financial statements. The District estimates that it will collect an additional \$3,644,987 in tax increments and state revenues in fiscal 2017-18 to be paid to the KDA in the 2018-19 fiscal year. The tax increment base value is \$4,397,510 and the certified taxable value in the Zone for the 2017 tax year is \$228,016,361. The District has received \$12,915,021 in tax collections in excess of bond payment requirements and related expenses. These proceeds have been placed in a special revenue fund to be used within the TIRZ at the discretion of the District.

^{**}Bonds maturing on or after May 15, 2021 are subject to redemption in whole, or from time to time in part, at the option of KDA prior to their maturity dates on May 15, 2020 or on any date thereafter at a price of par value plus unpaid accrued interest from the most recent interest payment date to the date fixed for redemption.

NOTE 10 – COMMITMENT TO FINANCE MULTI-PURPOSE COMPLEX THROUGH PARTICIPATION IN TAX INCREMENT REINVESTMENT ZONE AGREEMENTS (continued)

Other Significant Information

The KDA, a public not-for-profit local government corporation, was authorized to be established by the City of Katy, Texas in 1998, to aid, assist, and act on behalf of the City in the performance of the City's governmental functions and to provide a means of financing certain project costs in connection with Reinvestment Zone Number One, City of Katy, Texas (the Zone). The KDA is governed by a board of directors (the Board), whose voting members are appointed by the City. KDA is the administrator of the Zone. The KDA is considered a discretely presented component unit of the City in accordance with accounting principles generally accepted in the United States of America applicable to state and local governments.

The Zone was created by the City Council of the City, pursuant to the provisions of the Tax Increment Financing Act, Chapter 311, Texas Tax Code (the TIF Act), to facilitate development of the land within the boundaries of the Zone, consisting of land located entirely within the City and Fort Bend County (the County). The majority of the Zone, consisting of 479 acres, is bounded by Interstate 10 on the north, Pin Oak Village and Falcon Point on the south, Katy Fort Bend Road on the east, and Pin Oak Road on the west. An interchange on Interstate provides direct access to the Zone. The remainder of the property in the Zone is located north of Interstate 10 and is owned by the District.

The ordinance of the City establishing the Zone also established a board of directors of the Zone (the Zone Board). The Board of Directors of the Zone consists of nine persons: five appointed by the City, one appointed by the County, one appointed by the District, one appointed by the state senator in whose district the Zone is located, and one appointed by the state representative in whose district the Zone is located.

As required under the TIF Act, the Zone Board adopted, and the City Council of the City approved, a Project Plan and Reinvestment Zone Financing Plan, which has been amended (as amended, the Plan). The Plan sets out the public improvements needed to develop or induce development within the Zone (the Public Improvements). The cost of the Public Improvements, the cost of creation of the Zone, and related organizational costs (the Project Costs) constitute eligible project costs under the TIF Act, which may be financed with proceeds of the bonds.

NOTE 11 – UNEARNED REVENUES AND DEFERRED INFLOWS OF RESOURCES

Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities in the current period. Government funds also record unearned revenue in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred inflows of resources and unearned revenue at August 31, 2017 reported in the governmental funds were as follows:

| | Unavailable | | Unearne | |
|---|-------------|------------|---------|---------|
| Deferred Inflows of Resources | | _ | | _ |
| Net Property Taxes Receivable (General Fund) | \$ | 7,091,973 | \$ | |
| Net Property Taxes Receivable (Debt Service Fund) | | 2,451,345 | | |
| School Health and Related Services | | 6,444,797 | | |
| Unearned Revenue | | | | |
| Proceeds-Expenditure | | | | |
| Driven State Grants (Special Revenue Fund) | | | | 296,641 |
| Revenues Received Prior to Meeting all | | | | |
| Expenditure Requirements (General Fund) | | | | 106,864 |
| Total | \$ | 15,988,115 | \$ | 403,505 |

NOTE 12 – FUND EQUITY

Nonspendable, Restricted, Committed and Assigned Fund Balance

A summary of nonspendable, restricted, committed and assigned fund balance at August 31, 2017 is as follows:

| Fund Balances: | General | D | ebt Service | Capital Projects | Special Revenue |
|------------------------------------|------------------|----|-------------|---------------------|--------------------|
| Nonspendable: | | | | <u> </u> | |
| Inventory | \$ 1,332,832 | \$ | | \$ | \$ 331,544 |
| Prepaid Items | 616,065 | | | | |
| Total Nonspendable | \$ 1,948,897 | \$ | | \$ | \$ 331,544 |
| Restricted for: | | | | | |
| Long-Term Debt | \$ | \$ | 54,341,954 | \$ | \$ |
| Capital Acquisitions and Contracts | | | | 154,713,832 | |

| Total | | \$ 11,981,17 | 76 |

NOTE 15 – RETIREMENT PLAN

Retirement Plan

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The Plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) or the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the plan.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512)542-6592.

NOTE 15 – RETIREMENT PLAN (continued)

Retirement Plan (continued)

Benefit Provisions

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs, can be granted by the Texas Legislature as noted in the Plan description above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

Contribution Rates

| | 2016 | 2017 |
|--|----------------------------|-----------------------|
| Member | 7.2% | 7.7% |
| Non-Employer Contributing Entity (State) | 6.8% | 6.8% |
| Employers | 6.8% | 6.8% |
| | Measurement Year (2016) | Fiscal Year (2017) |
| | Contributions | |
| | Required and | TRS |
| | Made | Contributions |
| Member (Employee) Contributions | \$ 32,602,050 | \$ 36,618,429 |
| Non-employer contributing agency (State) Contributions | 24,247,063 | 24,884,418 |
| District Contributions | 12,454,547 | 13,273,105 |

NOTE 15 – RETIREMENT PLAN (continued)

Retirement Plan (continued)

Contributions Required and Made (continued)

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate, times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year, reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions

The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date August 31, 2016

Actuarial Cost Method Individual Entry Age Normal

Asset Valuation Method Market Value Single Discount Rate 8.00%

Single Discount Rate 8.00%
Long-term expected Investment Rate of Return 8.00%
Inflation 2.5%

Salary Increases including inflation 3.5% to 9.5%

Benefit Changes during the year None
Ad hoc post-employment benefit changes None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

NOTE 15 – RETIREMENT PLAN (continued)

Retirement Plan (continued)

Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the systems target asset allocation as of August 31, 2016 are summarized below:

| Asset Class | Target Allocation | Long-Term Expected Geometric Real Rate of Return | Expected Contribution to Long-Term Portfolio Returns * |
|-------------------------------|----------------------|--|--|
| | Allocation | Rate of Return | Fortiono Returns " |
| Global Equity | 100/ | 4.60/ | 1.00/ |
| U.S. | 18% | 4.6% | 1.0% |
| Non-U.S. Developed | 13% | 5.1% | 0.8% |
| Emerging Markets | 9% | 5.9% | 0.7% |
| Directional Hedge Funds | 4% | 3.2% | 0.1% |
| Private Equity | 13% | 7.0% | 1.1% |
| Stable Value | | | |
| U.S. Treasuries | 11% | 0.7% | 0.1% |
| Absolute Return | 0% | 1.8% | 0.0% |
| Stable Value Hedge Funds | 4% | 3.0% | 0.1% |
| Cash | 1% | (0.2%) | 0.0% |
| Real Return | | | |
| Global Inflation Linked Bonds | 3% | 0.9% | 0.0% |
| Real Assets | 16% | 5.1% | 1.1% |
| Energy and Natural Resources | 3% | 6.6% | 0.2% |
| Commodities | 0% | 1.2% | 0.0% |
| Risk Parity | | | |
| Risk Parity | 5% | 6.7% | 0.3% |
| Inflation Expectation | | | 2.2% |
| Alpha | | | 1.0% |
| Total | 100% | | 8.7% |

^{*} The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arimetic and Geometric mean returns.

NOTE 15 – RETIREMENT PLAN (continued)

Retirement Plan (continued)

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2016 Net Pension Liability.

| | Discount Rate | | | | |
|--------------------------------------|-------------------|----|--------------|----|-------------|
| | 1% Decrease | (| Current Rate |] | 1% Increase |
| | 7% | | 8% | | 9% |
| District's proportional share of the | | | | | |
| net pension liability | \$ 229,252,326 | \$ | 148,128,053 | \$ | 79,318,269 |

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2017, the District reported a liability of \$148,128,053 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the collective net pension liability | \$ 148,128,053 |
|--|-------------------|
| State's proportionate share that is associated with the District | 287,808,897 |
| Total | \$ 435,936,950 |

The net pension liability was measured as of August 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 thru August 31, 2016.

At August 31, 2016, the employer's proportion of the collective net pension liability was 0.39% which was an decrease of 0.01% from its proportion measured as of August 31, 2015.

Changes since the Prior Actuarial Valuation

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2017, the District recognized pension expense of \$25,237,062 and revenue of \$29,867,701 for support provided by the State.

NOTE 15 – RETIREMENT PLAN (continued)

Retirement Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

At August 31, 2017, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources | |
|---|--------------------------------------|-------------------------------------|--|
| Differences between expected and actual experience | \$ 2,322,620 | \$ (4,423,018) | |
| Changes of assumptions | 4,514,677 | (4,105,913) | |
| Net difference between projected and actual earnings on pension plan investments | 28,544,478 | (16,001,300) | |
| Changes in proportion and differences between District contributions and proportionate share of contributions | 36,330,597 | (10,684) | |
| District contributions subsequent to the measurement date Total | 13,273,105 \$ 84,985,477 | \$ (24,540,915) | |

The \$13,273,105 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended August 31, 2017. The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended | |
|------------|-----------------|
| August 31 | Amount |
| 2018 | (8,442,882) |
| 2019 | (8,442,882) |
| 2020 | (16,443,532) |
| 2021 | (7,828,137) |
| 2022 | (5,290,755) |
| Thereafter | (723,269) |
| | \$ (47,171,457) |

NOTE 15 – RETIREMENT PLAN (continued)

Retiree Health Plan

Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS website at www.trs.state.tx.us, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas contribution rates were 1.0% for 2015-2017. Active public school employee contribution rates were 0.65% of public school payroll, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2017, 2016, and 2015. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For staff members funded by federal programs, the federal programs are required to contribute 1.00%. The District contributed 100% of the annual required contribution for fiscal year 2017, 2016, and 2015.

Contributions made by the state, District, and active employees for the years ended August 31, 2017, 2016, and 2015 to TRS-Care are as follows:

| Fiscal Year | Co Ma | State TRS-Care Contribuitons Made on Behalf of the District | | District Required Contributions to TRS-Care | | Active Employees' Contributions to TRS-Care | |
|-------------|----------|--|----|--|----|--|--|
| 2015 | \$ | 4,037,282 | \$ | 2,493,897 | \$ | 2,771,320 | |
| 2016 | | 4,370,300 | | 2,648,206 | | 2,943,247 | |
| 2017 | | 4,578,181 | | 2,812,442 | | 3,091,893 | |

For the current fiscal year and each of the past two years, the District's actual contributions were equal to 100 percent of the required contributions. The contributions made by the State on behalf of the District have been recorded in the governmental funds financial statements of the District as both state revenues and expenditures. These contributions are the legal responsibility of the State.

NOTE 15 – RETIREMENT PLAN (continued)

Retiree Health Plan (continued)

Medicare Part D

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2017, 2016, and 2015, the subsidy payments received by TRS-Care on-behalf of the District were \$1,419,158, \$1,748,997, and \$1,815,965, respectively. The contributions made on behalf of the District have been recorded in the financial statements of the District as both revenue and payroll expenditure.

Compensated Absences

The District pays one-half of the locally accumulated sick leave days up to a maximum of 90 accumulated days to employees who retire with five or more years of continuous employment in the District and who retire from the state Teacher Retirement System. The majority of the payments are administered through Public Agency Retirement Services (PARS). During 2017, \$956,570 was disbursed to 92 members. No assets are being held or accumulated for future distribution. The District has accrued \$23,847,610 in the Government-wide Financial Statements to pay for compensated absences.

NOTE 16 – RISK MANAGEMENT

The District is exposed to various risks related to torts: theft of, damage to and destruction of assets, errors and omissions, natural disasters, health and welfare of employees for which the District carries commercial insurance or self-insures. No settlements have exceeded insurance coverage in the last three years.

Property, Casualty, General Liability, Professional Liability, and Unemployment

The District purchases commercial insurance for property loss with limits of \$250 million, \$25 million for named windstorms. The policy covers up to \$25 million per year for flood losses. In addition, the policy covers \$1 million for the one property currently in a flood plain. The District purchases an additional \$0.5 million building and \$0.5 million contents in flood protection for this facility. Casualty risks are insured by a risk pool through an Interlocal agreement with Texas Association of School Boards (TASB), with limits of \$1 million per occurrence and \$3 million aggregate for commercial general liability and a \$0.5 million combined single limit automobile policy. Professional liability risks are insured with limits of \$1 million. Within these policy limits, the District's exposure is limited to deductibles.

In addition to purchasing insurance for property, casualty, and liability risks, the District is a member of the Texas Association of School Boards Property/Casualty Joint Account, a public entity risk pool. The District uses the risk pool for its unemployment insurance coverage. The District's participation in the risk pool is limited to payment premiums for its unemployment coverage. The risk pool is fully funded through annual premiums, and excess loss policies are purchased by the pool as considered necessary. Settled claims have not exceeded insurance coverage in any of the previous three fiscal years.

There has not been any significant reduction in insurance coverage from that of the previous year.

NOTE 16 – RISK MANAGEMENT (continued)

Health Insurance

Effective January 1, 2004, the District established a partially self-insured program for health insurance coverage. Contributions are paid from all governmental funds to the Health Insurance Internal Service Fund from which all claims and administrative expenses are paid. Claims administration and consulting services are provided to the District through a third party administrator.

An accrual for incurred but not reported claims in the amount of \$1.9 million has been recorded in the fund as of August 31, 2017. Claims payable, including an estimate of claims incurred but not reported, was actuarially determined based on an estimate of the remaining liability of known claims.

At August 31, 2017, the fund had net position of \$11,022,992. Because of past history and the method of calculation, the District considers all claims to be current liabilities. Changes in incurred but not paid claims liability for the fiscal years ended August 31, 2017 and 2016 are as follows:

| | Health Insurance | | | |
|---------------------|----------------------|----|--------------|--|
| | 2017 | | 2016 | |
| Beginning Accrual | \$ 867,813 | \$ | 1,608,679 | |
| Current Estimates | 50,781,715 | | 42,137,708 | |
| Payments for Claims | (49,766,541) | | (42,878,574) | |
| Ending Accrual | \$ 1,882,987 | \$ | 867,813 | |

Workers' Compensation

The District established a limited risk management program for Workers' Compensation in 1992 by setting up the Workers' Compensation Internal Service Fund to account for its insured and self-insured risk of loss.

The Internal Service Fund charges the General Fund and Special Revenue Funds on the basis of payroll incurred by each fund in order to provide for Workers' Compensation claims of District employees. The ending retained earnings balance in the Internal Service Fund has been accumulated by the District's management to reserve for losses which may be incurred under its partially self-insured plan. The Internal Service Fund services all claims for risk of loss to which the District is exposed.

Workers' Compensation liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but were not reported until after August 31, 2017. Because of past history, the District considers all claims to be current liabilities. Because actual claims liabilities depend on such complex factors as inflation, changes in legal requirements and impairment benefits, the process used in computing claims liability results in an estimate. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Claims liability activities for 2017 compared to 2016 are as follows:

| Workers' Compensation | | | |
|-----------------------|-------------|---------------------------------------|------------------------------------|
| | 2017 | | 2016 |
| \$ | 44,150 | \$ | 40,755 |
| | 1,046,060 | | 928,119 |
| | (1,062,250) | | (924,724) |
| \$ | 27,960 | \$ | 44,150 |
| | \$ | \$ 44,150 1,046,060 (1,062,250) | \$ 44,150 \$ 1,046,060 (1,062,250) |

NOTE 16 – RISK MANAGEMENT (continued)

Workers' Compensation (continued)

At August 31, 2017, the District had \$3.1 million in cash available for payment of Workers' Compensation claims. The District has also purchased an excess Workers' Compensation policy for coverage relating to excessive Workers' Compensation claims. The District has a \$550,000 Self-Insured Retention (SIR) per any one occurrence. The policy has an obligation to pay all costs required by the Texas Workers' Compensation Act in excess of the District's SIR for each workers' compensation occurrence.

NOTE 17 – ARBITRAGE

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of 1) the amount earned on investments purchased with bond proceeds over 2) the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five year anniversary date of the bond issue. The District has not recorded a liability for arbitrage as of August 31, 2017. In management's opinion, the arbitrage liability, if any, would be immaterial to the financial statements as of August 31, 2017.

NOTE 18 – JOINT VENTURE SHARED SERVICE ARRANGEMENTS

The District is the fiscal agent for a Shared Service Arrangement (SSA) which provides services for deaf students of the District, Bellville ISD, Brazos ISD, Royal ISD and Sealy ISD. All services are provided by the fiscal agent, and funds are received directly by the fiscal agent from the granting agency. According to guidance provided in TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in the appropriate Special Revenue Fund Program and has accounted for these funds using Model 2 in the SSA section of the Resource Guide. Expenditures as of August 31, 2017 of the SSA are summarized below:

| | Katy ISD | Bellville ISD | Brazos ISD | Royal ISD | Sealy ISD |
|----------------------------------|------------|---------------|------------|-----------|-----------|
| IDEA-B Discretionary, Deaf | \$ 87,814 | \$ 5,629 | \$ 1,126 | \$ 3,377 | \$ 6,755 |
| IDEA-C Early Intervention | 2,405 | 154 | 31 | 93 | 185 |
| Regional Day School For the Deaf | 542,139 | 34,752 | 6,951 | 20,852 | 41,703 |
| Local Share, Deaf | 228,186 | 14,457 | 2,891 | 8,674 | 17,349 |
| | \$ 860,544 | \$ 54,992 | \$ 10,999 | \$ 32,996 | \$ 65,992 |

The District also participates in a Shared Service Arrangement for deaf education services with seven other school districts. Approximately 2% of the students served by the Shared Service Arrangement are attributable to the District. The District does not account for revenues or expenditures of this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in capital assets purchased by the fiscal agent, Cypress-Fairbanks ISD, nor does the District have a net equity interest in the fiscal agent.

NOTE 18 – JOINT VENTURE SHARED SERVICE ARRANGEMENTS (continued)

The fiscal agent is neither accumulating significant financial resources nor fiscal contingencies that would give rise to a future additional benefit or burden to Katy ISD. The fiscal agent manager is responsible for all financial activities of the Shared Services Arrangement. Presented below are the revenues and expenditures as of August 31, 2017 attributable to the District's participation.

| Revenues: | |
|------------------------------|--------------|
| Local Revenue | \$ 28,085 |
| State Revenue | 45,705 |
| Total Revenues | \$ 73,790 |
| | |
| Expenditures: | |
| Payroll Costs | \$ 73,605 |
| Contract Services | 57 |
| Supplies | 4 |
| Other Operating Expenditures | 124 |
| Total Expenditures | \$ 73,790 |

NOTE 19 – LITIGATION AND CONTINGENCIES

From time to time, the District is a defendant in legal proceedings relating to its operations as a school district. In the best judgment of the District's management, the outcome of any present legal proceedings will not have any adverse material effect on the accompanying financial statements.

NOTE 20 – TAX ABATEMENTS

The District had one Chapter 313 Agreement with Weatherford Artificial Lift Systems, Inc. for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes pursuant to the Chapter 313 of the Texas Tax Code, i.e., the Texas Economic Development Act, as set forth in Chapter 313 of the Texas Tax Code, as amended.

Value limitation agreements are a part of a state program, originally created in 2001 which allows school districts to limit the taxable value of an approved project for Maintenance and Operations (M&O) for a period of years specified in statute. The project under the Chapter 313 agreement must be consistent with the state's goal to "encourage large scale capital investments in this state." Chapter 313 of the Tax Code grants eligibility to companies engaged in manufacturing, research and development, renewable electric energy production, clean coal projects, nuclear power generation and data centers.

In order to qualify for the value limitation agreement, the applicant is required to meet a series of capital investment, job creation, and wage requirements specified by state law. At the time of the application's approval, the agreement was found to have done so by both the District's Board of Trustees and the Texas Comptroller's Office, which recommended approval of the project. The application, the agreements and state reporting requirement documentation can be viewed at the Texas Comptroller's website: https://comptroller.texas.gov/economy/local/ch313/agreement-docs.php. The agreement and all supporting documentation was assigned a Texas Comptroller Application number.

Weatherford Artificial Lift Systems, Inc.'s (Application 233) first year's value limitation was tax year 2015. The net benefit to the District is \$21,229 for the 2016-2017 school year. The project's value limitation is \$30,000,000, with a total project value of \$45,277,850. The applicant's M&O taxes have been reduced by \$212,288 for fiscal year 2017.

NOTE 20 – TAX ABATEMENTS (continued)

The District also has one active Foreign Trade Zone Agreement with Kobelco Construction Machinery Co. Ltd. Foreign Trade Zones in the State of Texas can access an ad valorem property tax exemption under Federal Law at 19 USC 81 O (e). The exempted value in the zone for 2016-2017 year is \$12,078,776, resulting in the applicant's taxes being reduced by \$183,187. State funding formulas will hold the District harmless for \$1.00 of the District's \$1.5166 tax rate and Kobelco reimbursed the District for lost tax revenues on the remaining \$0.5166 tax rate in the amount of \$62,399.

NOTE 21 – HURRICANE HARVEY

On August 25, 2017, Hurricane Harvey made landfall on the Texas coast before stalling over the Houston-Galveston area and producing significant flooding. As a result, District officials cancelled classes from August 25 through September 8, 2017. Many residences and commercial properties sustained damage due to flooding. The Texas Education Agency notified districts in the disaster declared areas that they are eligible to apply for missed school day waivers for the time period that the District cancelled classes. The district has applied for and received the waiver.

The District did experience damage to some facilities which did not have a substantial negative effect on the operation of the District. However, damage to the Education Support Center/Leonard Merrell Center (ESC/LMC) and Creech Elementary School was more extensive due to flooding. The remediation and restoration of the ESC/LMC facility is anticipated to be substantially complete by early 2018, while Creech Elementary is not projected to reopen until the 2018-2019 school year. Creech Elementary students are temporarily located at alternative site for school year 2017-2018.

The District has recorded an impairment to the ESC/LMC facility and Creech Elementary in the amount of \$2,460,139 and \$1,477,780, respectively.

On August 25, 2017, the President of the United States issued a major disaster declaration, which was later amended and includes all three counties in which the District is located; Harris, Fort Bend, and Waller Counties. This declaration made federal assistance available including direct federal assistance under the Public Assistance Program. The District expects to utilize its general fund balance to initially cover Hurricane Harvey related expenses and to seek reimbursement from the Federal Emergency Management Agency (FEMA) for eligible disaster-related expenses. The District also intends to file insurance claims to cover eligible losses at sites that sustained damage. The District's insurance policies generally carry a windstorm deductible at each site.

The District has authorized the appraisal districts of the three counties in which it is located to reappraise damaged properties, but will not know the full extent of damages and the resulting affect to property values until sometime in 2018.

NOTE 22 – SUBSEQUENT EVENTS

On November 7, 2017, voters authorized \$609,200,000 of General Obligation Bonds to provide funding for the construction of new facilities, the renovation of existing facilities, and the purchase of land sites, buses, furniture, equipment, and technology.

KATY INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED AUGUST 31, 2017

Budgets and Budgetary Accounting

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the General Fund, the Child Nutrition Fund and the Debt Service Fund for the fiscal year beginning September 1. The Texas Education Code requires the budget to be prepared not later than August 20 and adopted by August 31 of each year. The Budgets are prepared on a basis of accounting that is used for reporting in accordance with Generally Accepted Accounting Principles.

The District annually adopts legally authorized appropriated budgets for the General Fund, Debt Service Fund, and Child Nutrition Program.

The District's administration performs budget reviews during the year by which budget requirements are reevaluated and revisions recommended to the Board. The Board may approve amendments to the budget, which are required when a change is made to any one of the functional expenditure categories or revenue object accounts defined by the TEA. Expenditures may not legally exceed budgeted appropriations, as amended, at the function level by fund. Unexpended appropriations lapse at year-end.

The following procedures were followed in establishing the budgetary data reflected in the Fund Financial Statements:

- 1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.
- 3. Prior to September 1, the budget is legally adopted by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year.
- 4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are amended by the Board. All budget appropriations lapse at year end.

During the fiscal year ended August 31, 2017 the District did not have any expenditures over appropriations on all required legally adopted budgets.

KATY INDEPENDENT SCHOOL DISTRICT SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY TEACHERS RETIREMENT SYSTEM FOR THE LAST THREE MEASUREMENT YEARS ENDED AUGUST 31

Exhibit F-2

| | 2014 | 2015 | 2016 |
|---|-------------------|-------------------|-------------------|
| District's Proportion of the Net Pension Liability | 0.23% | 0.40% | 0.39% |
| District's Proportionate Share of Net Pension Liability | \$ 61,442,566 | \$ 141,271,770 | \$ 148,128,053 |
| State's Proportionate Share of the Net Pension Liability associated with the District | 217,114,716 | 267,896,675 | 287,808,897 |
| Total | \$ 278,557,282 | \$ 409,168,445 | \$ 435,936,950 |
| District's Covered-Employee Payroll | \$ 384,948,688 | \$ 426,358,194 | \$ 452,806,263 |
| District's Proportionate Share of the Net Pension Liability as a Percentage of its Covered-Employee Payroll | 15.96% | 33.13% | 32.71% |
| Plan Fiduciary Net Position as a Percentage of the Total Pension Liability | 83.25% | 78.43% | 78.00% |
| Plan's Net Pension Liability as a Percentage of Covered-Employee Payroll | 72.89% | 91.94% | 92.75% |

The amounts presented are for each Plan year which ends the preceding August 31 of the District's fiscal year.

Ten years of data should be presented in this schedule, however data is unavailable prior to 2014. Net pension liability and related ratios will be presented prospectively as data becomes available.

KATY INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY PENSION INFORMATION FOR THE YEAR ENDED AUGUST 31, 2017

Effective September 1, 2014, employers who did not contribute Social Security for TRS-eligible employees were required to contribute an additional 1.5% of TRS-eligible compensation which nearly doubled the District's contributions into the Plan. Because the District's proportional share of the plan is determined by its proportional share of contributions, the District recognized a corresponding increase in its share of net pension liability.

Changes in Assumptions

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

Changes in Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Other Supplementary Information

COMPARATIVE STATEMENTS, COMBINING SCHEDULES AND BUDGET COMPARISONS

THIS PAGE INTENTIONALLY LEFT BLANK

GENERAL FUND

The General Fund is used to account for all financial transactions not properly included in other funds. The principal sources of revenues include local property taxes, state reimbursement for professional salaries and other operating expenditures, and earnings on investments. Expenditures include all costs associated with the daily operations of the schools.

SPECIAL REVENUE FUND

The Special Revenue Fund is used to account for financial resources restricted to or designated for specific purposes by a grantor. Specifically, this type of fund is used to account for the District's Food Service program, including local and federal revenue sources for state and federally financed programs (grants) where unused balances are returned to the grantor at the close of specified project periods, and other revenue specific programs.

Special Revenue Program Descriptions

McKinney Vento - Funds are to be used to provide supplemental academic and related assistance to facilitate the academic success of students who are in homeless situations.

Elementary and Secondary Education Act (ESEA) Title I, Part A - Improving Basic Programs - Funds are used on identified campuses to enable schools to provide opportunities for children served to acquire the knowledge and skills contained in the challenging State content standards and to meet the challenging State performance standards developed for all children.

Individuals with Disabilities Education Act (IDEA), Part B - Formula - Funds are used to operate educational programs for children with disabilities. This program also includes capacity building and improvement (sliver) subgrants.

Individuals with Disabilities Education Act (IDEA), Part B - Preschool - Funds are used for preschool children with disabilities.

Nutrition and Food Services - Funds are used to account for allowable expenditures, as determined under the National School Lunch Act, for the operation and improvement of the Child Nutrition Programs.

Vocational Education, Carl Perkins Basic Grant - Funds are used to provide instruction related to career and technology education and to develop new and/or improve career and technology education programs for paid and unpaid employment.

Elementary and Secondary Education Act (ESEA) Title II, Part A - Teacher and Principal Training and Recruiting — Funds are used to increase student academic achievement through improving teacher and principal quality and increasing the number of highly qualified teachers in classrooms and highly qualified principals and assistant principals in schools.

Elementary and Secondary Education Act (ESEA) Title III, Part A - LEP and Immigrant - Funds are used to improve the education of limited English proficient children by assisting the children to learn English and meet challenging State academic content and student academic achievement standards.

Medicaid Administrative Claiming Program - Funds are used for reimbursement of eligible administrative costs for activities attributed to the implementation of the Medicaid state plan.

Mathematics and Science Partnerships - Funds are used to improve the academic achievement of students in mathematics and science by providing professional development to improve teaching.

Federally Funded Special Revenue - Funds include the reimbursement of summer school costs for Limited English Proficient Students in Kindergarten and First Grade. They also include Early Childhood Intervention funds which are used to identify and provide needed intervention services for children from Birth to age 3 who are developmentally delayed or appear to be at risk for developmental delay.

Individuals with Disabilities Education Act (IDEA), Part B-Discretionary Deaf, SSA - Funds are used to support an education service center basic special education component and also targeted support to LEAs, Regional Day School Programs for the Deaf, private residential placements, priority projects, and other emerging needs.

Special Revenue Program Descriptions (continued)

Individuals with Disabilities Education Act (IDEA), Part C, Early Intervention, SSA - Funds are used to assist local Regional Day School for the Deaf programs and the Texas School for the Deaf in providing direct services to hearing impaired infants to toddlers ages birth through two years of age. The program also provides supplemental and appropriate services to eligible students that are provided by a certified and trained teacher.

State Visually Handicapped - Funds are used to provide educational assistance to visually impaired students.

Non-Educational Community-Based Support Services - Funds are used for the provision of non-educational community-based support services to students with disabilities who would remain or have to be placed in residential facilities for educational reasons without the provision of these services. The support services may include transportation, respite for the parents, case management, social work, inhome family support and other items.

Advanced Placement Incentive - Funds are used for training for eligible teachers who complete TEA-approved workshops.

Instructional Materials Allotment - Funds are used to provide instructional materials awarded under the textbook allotment.

Read-To-Succeed License Plate Program - Funds are awarded to specific campuses based on the sale of specialty license plates and are to be used to pay for educational materials for the school library.

State Funded Special Revenue Programs - Accounts for state funded special revenue that has not been specified above.

Regional Day School for the Deaf, SSA - Funds are used for staff and activities of the Regional Day School Program for the Deaf (RDSPD).

Local Share Regional Day School for the Deaf, SSA - Funds are used to account for excess costs of services provided to hearing impaired students ages birth through twenty-one.

Campus Activity Funds - Funds are used for activities benefiting students and staff.

Locally Funded Special Revenue Programs - Locally funded special revenue programs not specified above.

Tax Increment Reinvestment Zone - Funds are used to account for tax increment revenues, in excess of bond payments, restricted for expenditures within the reinvestment zone.

Katy ISD Education Foundation Grants - Funds will be used to provide resources to enrich teaching, inspire learning, and enhance opportunities for students enrolled in Katy ISD.

STATISTICAL SECTION (UNAUDITED)

The statistical section of the Katy Independent School District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's economic condition and overall financial health. To assist financial statement users, the information contained within this section is categorized as follows:

Financial Trends Information

These schedules contain trend information to show how the District's financial performance and position have changed over time.

Revenue Capacity Information

These schedules contain information to help assess the factors affecting the District's most significant local revenue source, the property tax.

Debt Capacity Information

These schedules present information to help assess the affordability of the District's current debt burden and its ability to issue additional debt in the future.

Demographic and Economic Information

These schedules provide demographic and economic indicators to help in understanding the environment in which the District operates and to facilitate in comparisons over time.

Operating Information

These schedules provide information about the District's operations and resources to assist in using the financial statement information to better understand and assess the District's economic condition.

⁽¹⁾ The percentage of overlapping debt is estimated using taxable assessed property values. Percentages were estimated by determining the portion of the overlapping taxing authority's taxable assessed value that is within the District's boundaries and dividing it by the overlapping taxing authority's total taxable assessed value.
