## Needs Assessment Overview

### Needs Assessment Overview Summary

Overall, we are doing quite well as a school. Our goal is to continue to make progress on a daily basis with every student in the building. We have the resources to make this possible. Structures have been created to strengthen our ability to make progress happen. We simply have to work smarter and develop ways to meet the academic needs of our most challenging sub-groups; EL and SPED learners. We are blessed to have a supportive central office and an awesome community!

# Demographics

## Demographics Summary

Katy Junior High is the oldest junior high in Katy ISD. We are located in the heart of the City of Katy and are supported by an active parent group.

Katy Junior High has a staff of approximately 132 total employees. We have ----- first-year teachers this year, and approximately 31 new staff members have joined KJH from other campuses. Staff experience ranges from just a few years to over 20 years on the campus.

Our student population is diverse as demonstrated on the tables below. We are projected to have an enrollment of 1,200. Our attendance rate was at 95.2% despite the continued challenges of COVID.

Race/Ethnicity	Number of Students	Percentage
Hispanic	524	46.5%
White	390	34.61%
Black/African American	140	12.48%
Asian	30	2.66%
2 or More	39	3.46%
Am Indian/Alaskan Native	1	.09%
Native Hawaiian	3	.27%

Total Enrollment	Percentage
At-Risk	43.66%
Economically Disadvantaged	54.92%
Limited Language Proficient	23.07%
Special Education	21.47%
GT	7.19%
ESL	20.5%

As evidenced above, we have a large percentage of student that participate in the special education program (21%). We have 2 life skills unit, and a RISE program, the majority of our special education students participate in the general education program with supports.

## Demographics Strengths

Katy Junior High has many strengths. Some of the most notable demographics strengths include:

1. Many families move into our area just for the schools. Our families value education we have many supportive parents and students who are committed to success. Parents and the community are involved with the campus.
2. The attendance rate at Katy Junior High remains strong. We have remained above 95% for the last 5 years.
3. Our mobility rate is lower than the district and state average. Our families remain in our community, even with affordable rental housing in our attendance zone.

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1:** We must continue to improve meeting the needs of each of our student groups. Specifically we must work to improve achievement for EBs, and SPED students. **Root Cause:** Although historically, these sub-pops have performed below average on State Assessments, last year's results showed meeting standards on Reading and Math with the exception of ELs. We must continue working to bridge the gap through incorporating targeted instruction.

**Problem Statement 2 (Prioritized):** Many of our students will continue to come to the 2023-2024 school year with learning loss due to instructional gaps. We must also maintain providing enrichment for all students, in addition to providing timely intervention for those who did not demonstrate mastery on the STAAR test in 2023. **Root Cause:** Learning was impacted due to prior loss of instruction, and increased absences.

### Student Learning Strengths

Our campus data is reflecting an improvement in scores at all grade levels and our learners are demonstrating growth.

Our 2023 6th and 8th grade Math results for all students showed improvement at the approaches, meets, and masters level. We attribute this to our campus vertical alignment, and hands-on lessons which provided students with a plethora of opportunities for Math discourse that led to higher levels of student engagement.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Many of our students will continue to come to the 2023-2024 school year with learning loss due to instructional gaps. We must also maintain providing enrichment for all students, in addition to providing timely intervention for those who did not demonstrate mastery on the STAAR test in 2023. **Root Cause:** Learning was impacted due to prior loss of instruction, and increased absences.

# School Processes & Programs

## School Processes & Programs Summary

The district provides the curriculum in a scope and sequence that is reviewed on a continual basis at the district level. Teachers are then able to plan lessons in Forethought allowing for an order and structure to their lessons. Teachers are also able to share plans as needed. Instructionally, teachers are provided the opportunity to meet weekly as a grade level/department team with their Instructional Coaches to determine best practices. Full department meetings are held at minimum of one per 6 weeks to do the same type of planning previously mentioned. ICs work constantly with their departments to enhance instruction and achievement. Assessments are also planned during both grade level and department meetings. CBAs are produced at each grade level per department with IC input and support to ensure a balance of knowledge and rigor to match the STAAR tests. The district produces DLAs to be given throughout the year. Ultimately, the STAAR test serves as the ultimate summative assessment to determine the quality of instruction and depth of learning for our students.

\*ICs and DCs will meet with Administration to determine the most productive IC/DC/Teacher relationship at KJH.

\*AWARE training will be reinforced so that all assessments will be loaded and disaggregated.

\*All faculty/staff members participate in Character Strong.

## School Processes & Programs Strengths

Our annual performance on the STAAR tests has been acceptable. The curriculum we use is the TEKS, so we teach essential objectives students must know for the STAAR test. Our CBAs are a combination of rigor and knowledge that lends to the success our students experience on them and the STAAR test. Our students out perform the students who are in our comparative group. In addition, our teachers use technology to their advantage and maximize the amount of hands-on learning possible.

Teacher input is expected in order to make most decisions regarding what is best for students.

We have the resources to meet any technology needs our students have. We also have teachers who are able to train teachers as needed relative to support using technology. We have several resident experts who volunteer to train colleagues in the use of technology.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1:** Effective systems and documented supports are not in place to determine which students require additional supports. **Root Cause:** Multiple leadership changes and lack of communication and accountability

**Problem Statement 2 (Prioritized):** Many of our students will continue to come to the 2023-2024 school year with learning loss due to instructional gaps. We must also maintain providing enrichment for all students, in addition to providing timely intervention for those who did not demonstrate mastery on the STAAR test in 2023. **Root Cause:** Learning was impacted due to prior loss of instruction, and increased absences.

# Perceptions

## Perceptions Summary

Feedback gathered from 2022 surveys indicated that both groups (parents and staff) expressed pride in their campus and explained that students have opportunities to excel and participate in a variety of activities. Staff members see their peers as family members and expressed pride in working at this campus.

## Perceptions Strengths

Most students are happy to be here, feel safe and feel good about their future!

Parent involvement is high as seen in PTA membership and support throughout the year.

1. We have a highly engaged PTA. Parents support 3 dances per year.
2. We have parent and community members serving on our CAT.
3. Parents are always engaged in all extra-curricular performances.
4. Multiple business partners contribute to the success of our academic programs.
5. KEYS Mentoring is a strong program here at school using non-parent community members.
6. The principal is able to solicit support from the community for funding and materials the school and PTA budgets cannot handle.
7. Our annual Veteran's Day celebration is an event that grows in magnitude each year.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1:** Campus leadership changes have been made this year, leading to a need for increased visibility and communication. **Root Cause:** There is a need for Consistency, Communication and Accountability

**Problem Statement 2 (Prioritized):** Many of our students will continue to come to the 2023-2024 school year with learning loss due to instructional gaps. We must also maintain providing enrichment for all students, in addition to providing timely intervention for those who did not demonstrate mastery on the STAAR test in 2023. **Root Cause:** Learning was impacted due to prior loss of instruction, and increased absences.

- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Local Accountability Systems (LAS) data
- Community Based Accountability System (CBAS)

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Gifted and talented data
- Response to Intervention (RtI) student achievement data

### **Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback
- School safety data

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

### **Support Systems and Other Data**

- Processes and procedures for teaching and learning, including program implementation
- Budgets/entitlements and expenditures data
- Study of best practices

# Goals

**Goal 1:** All learning environments will foster engagement by integrating personalized and focused learning experiences.

**Performance Objective 1:** By June 2024, 90% of Katy Junior High students taking the STAAR Reading, Math, Social Studies and Science will achieve the minimum expectation. In addition, each student group will increase their meets and masters percentages by 10%.

**Evaluation Data Sources:** At the end of the year we will use STAAR Reading, Math, Social Studies and Science scores for all student groups.
