## Comprehensive Needs Assessment

## Demographics

## Demographics Summary

Seven Lakes JH is a middle school in a growing suburb of Katy, Texas that currently serves 1615 students in grades 6th through 8th. SLJH consists of $23 \%$ economically disadvantaged students, $20 \%$ English language learners, $11 \%$ special education students, and $24 \%$ gifted and talented students. The student body consists of $24 \%$ Hispanic students, $9 \%$ African American students, $27 \%$ Caucasian students, and $36 \%$ Asian students. Of these students, $32 \%$ are considered At Risk.

Our Campus Advisory Team and Instructional Coaches work together to plan staff development that will enhance teaching and learning. All new teachers are provided with a mentor that meets with them consistently to provide support. In addition, all teachers have the support of their Professional Learning Community, as they plan and create student assessments collaboratively. All teachers are further supported by instructional coaches, which exist for every content area, and through feedback, from regular administrative walkthroughs. SLJH supports new teachers by assigning each a "buddy" teacher. We also meet regularly with all new staff members through the New Spartan Academy. Teachers seeking growth are invited to participate in the Teacher Leader Cohort which provides education and insight into the duties and role of campus leaders.

Our PTA typically consists of over 900 members and has an annual budget of over $\$ 100,000$ which is mostly spent on teacher grants. Each year we have several activities that involve the community such as a Community Pep Rally and International Festival. We look forward to implementing these activities again this year.

## Demographics Strengths

SLJH has a diverse student and parent population. We maintain high standards for all populations and continue to see growth in all areas.
We anticipate earning the seven areas of distinction from the state for 2023. We met the state target for all demographic groups in academics.
We have a large percentage of our students (24\%) in the Gifted and Talented program and enrolled in PreAP courses, including high school credit courses such as Algebra and Geometry.

## Student Learning

## Student Learning Summary

A comparison of our Approaches/Meets/Masters averages for 2022 and 2023 are as follows:

Our special education, economically disadvantaged, and ELL students are the three sub-populations where we need to improve the meets and masters level in all content areas Although we have seen growth in our ELL population. Our "What if" projection for our overall rating from the state is an A with a score of 96.

All core content teachers offer before or after-school tutorials twice per week from September to May. Students can attend tutorials with their own teacher or a different teacher. This worked because it provides the additional small group instruction necessary for the kids who need it and a flexible schedule for parents with tight schedules.

The advisory period (called Extended Learning Time) is a 35-minute daily time for intentional differentiation or to go back and revisit specific skills based on data from assessments. We believe this is beneficial because students will be provided with the additional instruction and practice they need without having to stay after school or come before school.

We have developed a collaborative culture that calls for all teachers to work on a lesson planning team to plan for instruction, analyze data, create common assessments, and review student work. In addition to meeting once or twice a week, teachers are provided with a half-day planning time each semester. This works because teachers have a clear focus, students are assessed across the campus, and best practices are shared.

In addition to the strategies listed above, we have added accelerated instruction for all students who did not meet the passing standard on STAAR assessments. This is provided through a campus summer program, district summer program, or during ELT time.

## Student Learning Strengths

Our students continue to excel academically with all STAAR passing rates in the 90 's except 7 th math, which was a passing rate of $85 \%$.
Areas that showed an increase were 6th-grade reading, 6th-grade math and 8th-grade math. Areas that showed a decrease were 7th and 8th reading, 7th math, 8th science, and 8th social studies

## Problem Statements Identifying Student Learning Needs

Problem Statement 1: We would like at least $60 \%$ of our ELL students to achieve "meets" in all areas on STAAR with a focus on 7th grade Math and 8th grade Social Studies. Root Cause: These students may not understand all of the academic vocabulary necessary to be successful on the state test.

Problem Statement 2: We would like at least $50 \%$ of our special education students to achieve "meets" in all areas of STAAR. Root Cause: These students may have difficulty answering higher level questions that require deeper thinking and may be missing foundational skills.

Problem Statement 3: We would like to increase our attendance percentage rate by $.2 \%$ each semester. Root Cause: Since the pandemic, our attendance rate has decreased.

## School Processes \& Programs

## School Processes \& Programs Summary

This year, 13 of our staff chose to leave SLJH, most of which were for promotions or for district positions.

Our Campus Advisory Team and Instructional Coaches work together to plan staff development that will enhance teaching and learning. All new teachers are provided with a mentor that meets with them consistently to provide support. In addition, all teachers have the support of their Professional Learning Community, as they plan and create student assessments collaboratively. All teachers are further supported by instructional coaches, which exist for every content area, and through feedback, from administrative walkthroughs.

## Instructional

SLJH faculty and staff are focused on student growth and achievement. We are committed to providing students with exceptional learning experiences through hands on instruction and innovative and research based strategies. SLJH faculty and staff monitor progress and achievement data based on the general population and sub-populations on a regular basis to ensure that students meet or exceed growth expectations.

## Curricular

SLJH uses unit plans developed by lead teachers and instructional coaches at the district level to ensure that we are covering all of the TEKS at the appropriate level of rigor.

## Personnel

SLJH recruits teachers and staff via word of mouth. Teachers actively participate in all aspects of the hiring process, from screening resumes to actually sitting in on the interviews. This empowers them to seek out candidates they know have the same philosophies regarding how we treat kids, what our expectations are for all kids, and the level of commitment to continuous learning as educators.

SLJH supports new teachers by assigning them a mentor as well as providing them with a collaborative team that meets consistently to review data and plan excellent instruction.
SLJH retains teachers by giving them a voice, training them to become leaders, and maintaining a positive school culture that celebrates successes and views failures as an opportunity to grow. The principal conducts new staff "check-in" meetings each grading period to address any questions or needs.

## Organizational

Our staff is organized into small teams of teachers we call professional learning communities that focus on specific content areas as well as departments by content area. Each department is represented on the leadership team and collaborates regularly to problem-solve and participate in leading the school.

## Administrative

Administrators also meet consistently and are assigned to specific departments to support and assess all areas of school operations. Administrators conduct informal walk-throughs in every class each week.

## Budget

Departments submit a proposal for any expenditures such as tutorials, supplies, reading materials, and technology needs. This works because it keeps everyone budget-focused.
We carefully monitor the facility to ensure that everything is in good repair and works properly.
Teachers conduct a checklist inspection of their rooms and work areas twice a year and report any needs directly to the campus secretary. This worked because each department took care of its individual budget and everyone took care of their specific working area.

We use ESSER funds to provide pay for teachers to lead "social groups" to help students feel connected on campus.

## Technology

All classrooms have access to a variety of technology for both teacher and student use. This ranges from desktops to laptops, iPads, Chromebooks, and SMART boards. While we do not have one-to-one devices, teachers can check out carts that contain chrome books as needed for instruction.

## Assessment

Our teachers work collaboratively to create common lesson plans. Part of that process involves them writing common assignments, quizzes, projects, and tests. Data is looked at regularly by teachers and special populations to plan the next steps in the teaching and learning process. We also participate in all district learning assessments and utilize that data as well.

## School Processes \& Programs Strengths

Student achievement scores continue to be highly competitive with like campuses.
The majority of teachers and staff choose to stay at SLJH or achieve promotions within the school district.
Teachers who request permission to attend additional staff development opportunities outside of what the campus and district provide are generally granted permission and financial support.

## Perceptions

## Perceptions Summary

Our parents and community members will be informed and involved in the teaching and learning that takes place in our school.
In 2022, our PTA membership had more than $80 \%$ of our 1600 Spartan families and almost $100 \%$ of the campus staff. The PTA is very active with 18 executive board members and various committee chairpersons. Their mission is student-driven and they successfully raise close to $\$ 100,000$ yearly for campus initiatives. This works because parents are eager to support a PTA that is student-focused.

We have Keys Mentors who come to our school and mentor our students. This positive adult relationship works to build the self-esteem of our students. We also have an internal mentoring program in which staff members mentor students who need that extra connection on campus

We hold a series of learning opportunities for parents called "The Spartan Parent Academy" where we offer different topics such as teaching your child to have a growth mindset, the teenage brain, etc.

SLJH also has a Diversity Club whose membership consists of students and staff members. One of the major events that the Diversity Club supports is an International Festival in the Spring. Students, families, community members, and local businesses represented 30 countries from around the world. Each country has a booth to share its native food, dress, games, and cultural traditions. It has been a very successful night of learning from each other and making connections across cultures.

Student surveys indicate students feel safe and cared for on our campus. Student achievement indicates a safe and positive learning environment is being provided and is supporting student success.

## Perceptions Strengths

The PTA is meeting the instructional needs of the campus by awarding grants to teachers who submit a request for instructional materials or professional development opportunities. Almost every grant request submitted has been funded.

The 30 different cultures represented at the SLJH International Festival brought together and celebrated our students, staff, and community members.
Overall, students indicate they feel safe and respected in our school according to the annual student survey. Staff indicate that they feel supported and valued. Parents indicate they are happy with the level of communication and overall service of campus staff.

## Priority Problem Statements

## Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Accountability Distinction Designations

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT

## Student Data: Student Groups

- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

## Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback

## Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

## Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

## Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices
- Action research results

## Goals

Goal 1: All learning environments will foster engagement by integrating personalized learning experiences.

Performance Objective 1: The percentage of ELL and Special Education students achieving "meets standard" on STAAR reading and math will increase by 10\%

Evaluation Data Sources: Campus Based Assessments, DLA's, End of year STAAR report and accountability report.

| Strategy 1 Details | Reviews |  |  |  |

| Strategy 3 Details | Reviews |  |  |  |
| Strategy 3: Professional development will focus on strategies to improve content vocabulary across all content areas throughout the year. | Formative |  |  | Summative |
|  | Oct | Jan | Apr | June |
| Strategy's Expected Result/Impact: Students will know content vocabulary and be able to use it in context. <br> Staff Responsible for Monitoring: Instructional Coaches <br> Administrators | 60 |  |  |  |
| 0\% No Progress $\quad$ (100\%) Accomplished $\quad$ Continue/Modify | Dis |  |  |  |

Goal 1: All learning environments will foster engagement by integrating personalized learning experiences.

Performance Objective 2: Teachers will implement strategies from the Effective Schools Framework lever "Productive Struggle" with students.
Evaluation Data Sources: Lesson planning, Student work samples, Campus Based Assessments

Goal 2: Katy ISD will develop meaningful, effective assessments that inspire and inform students and educators toward continuous improvement.

Performance Objective 1: Department and grade level teams with assistance from Instructional Coaches will utilize multiple sources of data to plan for differentiated instruction during ELT (Extended Learning Time).

Evaluation Data Sources: PLC Minutes, Data discussions, planning sessions, ELT planning spreadsheet

Goal 3: Katy ISD will attract and support high quality staff members to optimize their impact on student learning and create a culture of staff retention.

Performance Objective 1: Seven Lakes Junior High will establish systems for teachers to feel connected to one another and to feel supported by administration and support personnel in order to retain teachers.

Evaluation Data Sources: Teacher retention rate

| Strategy 1 Details | Reviews |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Strategy 1: Staff will engage in team building activities at all staff meetings. | Formative |  |  | Summative |
| Instructional Coaches and Administration will provide support during planning sessions. Administrators will visit classrooms and give positive feedback weekly. | Oct | Jan | Apr | June |
| Campus wide social events will be planned three times per semester. <br> Strategy's Expected Result/Impact: Staff members will know each other and feel connected. <br> Staff members will know their strengths. <br> Staff members will feel supported. <br> Staff Responsible for Monitoring: Administrators <br> Instructional Coaches <br> TEA Priorities: <br> Recruit, support, retain teachers and principals | 40\% |  |  |  |
| Strategy 2 Details | Reviews |  |  |  |
| Strategy 2: The administrative team will develop an exit survey to teachers who resign or transfer from SLJH. <br> Strategy's Expected Result/Impact: The SLJH Administrative Team will have a clear understanding of what obstacles keep us from retaining quality teaching staff. <br> Staff Responsible for Monitoring: Administration <br> TEA Priorities: <br> Recruit, support, retain teachers and principals | Oct 10\% | Jan | Apr | Summative |

Goal 4: Katy ISD will develop intentional strategic partnerships which capitalize on the strengths, resources and talents of all stakeholders in order to engage the entire community.

Performance Objective 1: Seven Lakes Junior High will identify topics of interest for parents and establish systems for educating parents on various topics.
Evaluation Data Sources: Parent Survey, Sign in sheets for meetings

Goal 4: Katy ISD will develop intentional strategic partnerships which capitalize on the strengths, resources and talents of all stakeholders in order to engage the entire community.

Performance Objective 2: Seven Lakes Junior High will encourage both staff and community participation at extra-curricular events.
Evaluation Data Sources: Attendance numbers for events for both staff and community members

Goal 5: Katy ISD will actively support the emotional well-being of all learners.

Performance Objective 1: Seven Lakes Junior High will implement Character Strong or Harbor lessons bi-weekly to proactively support the emotional wellbeing of our students.

Evaluation Data Sources: Student Survey, Character Strong Lesson plans

| Strategy 1 Details | Reviews |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Strategy 1: We will implement the "Character Strong" program campus-wide during advisory once a week. | Formative |  |  | Summative |
| The Spartan Roundtable (students) will develop ways to help students feel connected | Oct | Jan | Apr | June |
| Students will participate in team-building activities regularly in advisory. | 40\% |  |  |  |

[^0]Goals are set for identified student groups at each campus. Actual percentages of students' performance cannot be made public for student groups with less than 25.
Districts must make sure these minimum numbers are met when reporting student results in order to not violate FERPA by publishing information that can identify individual students.

The percent of Katy ISD Elementary 3rd grade students who achieve Meets and above
in Math will increase from $60 \%$ to $67 \%$ by July 2024.

Goals are set for identified student groups at each campus. Actual percentages of students' performance cannot be made public for student groups with less than 25. Districts must make sure these minimum numbers are met when reporting student results in order to not violate FERPA by publishing information that can identify individual students.

Goals are set for identified student groups at each campus. Actual percentages of students' performance cannot be made public for student groups with less than 25. Districts must make sure these minimum numbers are met when reporting student results in order to not violate FERPA by publishing information that can identify individual students.

SLJH CAT Meetings 2020-2021
Meeting Timeline:
September 23, 2020 CAT Meeting - train members, review data from 2019 and discuss strengths and areas of improvement

December 2, 2020 CAT Meeting - Reviews progress on goals
February 17, 2021 - CAT Meeting - Discuss progress on goals, staffing for 2021-2022, budget for 2021-2022

April 14, 2021 - CAT Meeting - Discuss progress on goals and professional development plan for 2021-2022
